02/11/2019

The Honorable Board of Directors
Tampa Bay Water
2575 Enterprise Road
Clearwater, FL 33763

We are pleased to submit the Comprehensive Annual Financial Report (CAFR) for Tampa Bay Water (Agency) for the fiscal year ended September 30, 2018 in accordance with section 5.06 of the Agency's Utility System Revenue Bond Resolution, Resolution number 98-07. The purpose of this report is to provide the Board of Directors (Board), member agencies, investors, the public and other interested parties with reliable financial information about the Agency.

Management assumes full responsibility for the completeness and reliability of the information contained in the CAFR, which is based upon a comprehensive framework of internal controls that was established for this purpose. Because the costs of internal controls should not exceed the anticipated benefits, the objective is to provide reasonable, rather than absolute, assurance that the financial statements are free of any material misstatements.

Agency policy requires that an independent certified public accounting firm, approved by the Board, audit the financial statements on an annual basis. Mauldin & Jenkins have issued an unmodified (or clean) opinion on the Agency's financial statements for fiscal year ended September 30, 2018.

Management's Discussion and Analysis (MD&A) immediately follows the independent auditor's report in the Financial Section and provides an overview, summary and analysis of the financial statements. The MD&A complements this Letter of Transmittal and should be read in conjunction with it.

Respectfully Submitted,

A handwritten signature in blue ink, appearing to read "Christina Sackett", with a long horizontal flourish extending to the right.

Christina Sackett - Chief Financial Officer

Tampa Bay Water Profile

Tampa Bay Water, A Regional Water Supply Authority (the Agency), formerly the West Coast Regional Water Supply Authority (the Predecessor Authority), was created on October 25, 1974, by enabling state legislation under *Florida Statute* Sections 163.01, 373.713, and 373.715. Hillsborough, Pasco, and Pinellas counties and the cities of St. Petersburg, Tampa, and New Port Richey comprise the Member Governments of the Agency. A Governance Study was adopted by the Florida Legislature in 1997 (the 1997 Legislation) amending Section 373.1963, *Florida Statutes*.

As part of the 1997 Legislation, the Agency entered into the Interlocal Agreement and the Master Water Supply Contract with its Member Governments for a term of 40 years. Pursuant to the Amended and Restated Interlocal Agreement and Master Water Supply Contract, the Agency is required to meet the Quality Water needs of the Member Governments and to charge a uniform per-1,000 gallons wholesale rate to Member Governments for the wholesale supply of drinking water; with one exception for the City of Tampa. The Agency will charge a separate rate to the City of Tampa for water delivered from the Tampa Bypass Canal.

The Agency provides quality drinking water to its six-member governments whose water service areas serve approximately 2.5 million residents in the Tampa Bay region. The region is served by a combination of groundwater, surface water and desalination water. Since the Agency's inception in 1998, groundwater pumping has reduced by more than 50 percent.

Tampa Bay Water Mission

Tampa Bay Water reliability provides clean, safe water to the region now and for future generations.

Tampa Bay Water Vision

- Be a model for regional water supply in the nation;
- Be a leader in innovation and best practices; and
- Be a respected member of the Tampa Bay community.

Executive Committee

The Tampa Bay Water board has an Executive Committee that includes the Board Chair, the Vice-Chair and one additional member appointed by the chair. The chair may also choose to appoint another member as an alternate. The policy requires each member of the Executive Committee be from a different county within Tampa Bay Water's geographic area. The Executive Committee meets on the third Monday of the month on off-board meeting months (January, March, May, July, September and November). Presentations for this meeting typically include agency policy discussions and in-depth information on plans and programs for input prior to going to the full board.

Board of Directors

The Board of Directors (the "Board") of Tampa Bay Water is composed of two directors each for Hillsborough, Pasco and Pinellas Counties and one director each from the Cities of New Port Richey, St. Petersburg and Tampa. Each member of the Board is an elected official. In the case of Hillsborough, Pasco and Pinellas Counties, the members of the Board are appointed by their respective Board of County Commissioners and serve at the pleasure of their respective Boards. In the case of St. Petersburg and Tampa, their representatives are currently chosen by their respective Mayors. In the case of New Port Richey, its representative is currently the Mayor.

Organizational Structure

The General Manager is appointed by and serves at the pleasure of the Agency's Board of Directors and is responsible for providing the leadership to develop and expand the organization in a multitude of activities in the areas of water production, science, technology, finance, administration, public affairs, human resources and ensuring that Board policies and programs are implemented in accordance with the Board's direction. The General Manager oversees the Human Resources Department and four divisions as follows:

The Human Resources Department is responsible for assisting in the needs of the 148-full time equivalent employee positions of Tampa Bay Water. Human Resources reports directly to the Agency's General Manager

The Water Production Division plans, designs, builds, operates, supports, monitors, and maintains Agency facilities to continuously provide high-quality water. The Division is divided into three operating sections: Operations & Maintenance, Contracts & Construction, and Engineering Support. The Operation & Maintenance Section is divided into North and South Regions.

The Science and Technology Division leads the Agency in the efficient management of data and information to support all regulatory compliance, permitting and reporting services, water supply planning, source water assessment, and decision support activities.

The Finance & Administration Division controls finances, risk and vital records for the Agency. The Division is comprised of three departments; Finance, Purchasing, Records, and Information Technology support for all business units. This Division's goal is to maintain the Agency's financial stability and sustainability. Each department plays a key part in the five objectives developed to help achieve this goal; comply with new financial requirements with increased auditor services, use investment advisor to maximize rate of return on investments, maintain Agency's AA+/Aa1 bond rating by maintaining cash reserves and optimizing debt refunding opportunities, update the chemical and electrical model for data and rate accuracy and implement regular inventory review process.

The Public Affairs Division develops and executes strategic initiatives to maintain open, collaborative relationships with member governments and other stakeholders. The Division includes Public Communications and Intergovernmental Affairs.

Economic Conditions and Outlook

The information presented in the financial statements is perhaps best understood when it is considered from the broader perspective of the specific environment within which Tampa Bay Water resides.

Tampa Bay Water provides water to their members which consists of three counties, Hillsborough, Pasco and Pinellas and one city within each of those counties, the cities of Tampa, New Port Richey, and St. Petersburg. An estimated 2.5 million people receive water from Tampa Bay Water through their members.

According to Moody's Corporation each of the three counties have seen an increase in their total population, per capita income, single family permits, and a decrease in the unemployment rate and multifamily permits from calendar year 2017 to 2018. Hillsborough county had the highest percentage increase in population at 2.31 percent, and single family building permits at 12.01 percent. Pasco county led the way in the increase in per Capita Income at 8.10 percent and the biggest decrease in unemployment rate of 0.41 percent when comparing calendar years 2017 to 2018.

The positive trends are expected to continue over the next few years for all three counties with Hillsborough county leading the way in population and single family building permits, while Pasco county expects to have the highest increase in per capita income and largest decrease in the unemployment rate.

Long-Range Planning

To achieve the mission and vision of the agency, a strategic plan has been created for use as a road map for the next five years. The plan was last updated and approved by the Board of Directors at its February 2016 board meeting.

The plan was created to meet the Board's overarching goals of balancing a reliability water supply, environmental sustainability, and cost to the ratepayers. The updated Strategic Plan resulted in five strategic goals:

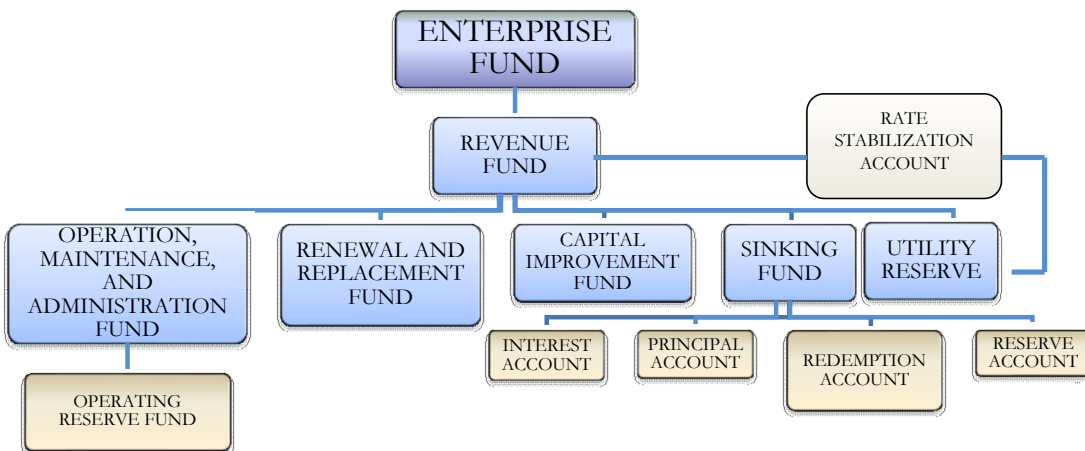

- Maintain water supply and delivery system reliability and sustainability;
- Increase efficiency of all Agency operations;
- Maintain financial stability and sustainability;
- Maintain open, collaborative relationships with member governments and other stakeholders; and
- Ensure the safety and security of agency employees and facilities.

The adoption of this plan, as well as recommendations from the 2010 and 2015 performance and management audits performed on the agency and the agency shift from focusing on designing and constructing major water supply facilities to managing and maintaining the \$1.22 billion in infrastructure built, led to the agency reorganization.

Tampa Bay Water's organization design focuses on the Mission, Vision and Value statements, better positions the agency to implement the Board's Strategic Plan, and implements recommendations from the performance audits. The Strategic Plan can be found at: <https://www.tampabaywater.org/documents/Strategic-Planning-2016.pdf>

Fund Structure Overview

Tampa Bay Water consists of one major Enterprise Fund, for accounting purposes the Enterprise Fund is further broken down into additional funds and accounts.

1. The Revenue Fund is the initial depository for all Agency revenue. Revenue is transferred to other funds as required.
2. The Operation, Maintenance, and Administration Fund is used to pay all operating and administrative costs of the Agency. The Operation, Maintenance and Administration Fund includes the Operating Reserve Fund.

3. The Renewal and Replacement Fund is used for repairs and replacement of the System as the need arises and as approved by the Board.
4. The Capital Improvement Fund is used to pay costs of various capital projects as designated by the Board.
5. The Sinking Fund holds all Agency funds restricted to payment of Agency debt. The Sinking Fund consists of four (4) accounts: Interest Account, Principal Account, Redemption Account, and Reserve Account. The Interest, Principal, and Redemption Accounts are funded annually from Revenues and are used annually to pay debt service. The Reserve Account is fully funded from bond proceeds and generally changes only when new debt is issued or an outstanding bond issue is redeemed.
6. The Utility Reserve Fund is used for transfers in of any unexpended funds remaining at the end of a fiscal year. The fund balance is maintained at a balance sufficient to meet bond coverage requirements and operating capital needs. The Utility Reserve may be used for any lawful purpose relating to the System, including funding of the Rate Stabilization Account

Financial Policies

The financial policies are intended as a guide to financial stewardship of Tampa Bay Water. The policies will guide essential decisions affecting budget and financial matters to ensure the Agency is financially prepared to meet the Board's immediate and long-term service objectives.

Utility Reserve Fund Policy

To provide adequate operating capital at all times, Tampa Bay Water shall maintain, at a minimum, a Utility Reserve Fund sufficient to cover 10% of yearly budgeted Gross Revenue (as defined in Tampa Bay Water's bond covenants), exclusive of revenue from government grants, whether such grants are received for capital improvement or operating purposes. The balance in the Utility Reserve Fund shall also be maintained at levels sufficient to ensure that Tampa Bay Water complies with its bond covenant requirements including a requirement that Net Revenues plus Fund Balance (unencumbered monies on deposit in the Utility Reserve Fund on the preceding September 30th) be equal to or greater than 125% of annual debt service coming due in the fiscal year. A higher coverage may be established by the Board if circumstances warrant such coverage.

To insure compliance with Master Water Supply requirements, any Gross Revenues which remain on deposit at the end of the fiscal year and which are not required to pay liabilities existing at the end of the fiscal year (unexpended funds) shall be deposited to the Utility Reserve Fund. The Director of Finance & Administration will evaluate the adequacy of the Utility Reserve Fund balance as it relates to both the current year and the succeeding budget year debt covenant calculations. Monies deposited to the Utility Reserve Fund will remain in the Utility Reserve Fund to the extent they are needed to maintain compliance with bond covenants and as required by the Utility Reserve Fund Policy.

Rate Stabilization Account Policy

The Master Water Supply Contract allows the Board to establish a Rate Stabilization account. After meeting the Utility Reserve Fund requirements, any additional funds deposited to the Utility Reserve Fund at the end of the fiscal year shall be transferred to the Rate Stabilization Account and accounted for as deferred inflows of resources of the fiscal year in which the revenues were accrued. Such transfer and accounting must be made no later than 90 days after the end of the fiscal year in which the funds were accrued and must be approved by the General Manager.

The lesser of (a) 3% of budgeted revenue of the year just ended or (b) the dollar amount of encumbrances being carried forward or (c) the amount of monies deposited to the Rate Stabilization Account may be applied as Revenue in the first succeeding fiscal year, with the approval of the General Manager. Such funds are to be used for purposes of funding encumbrances carried forward and/or other approved activities. Encumbrances which exist at the end of the fiscal year just ended and which are being funded from the Uniform Rate may also be carried to the first succeeding

fiscal year with the approval of the General Manager to allow for completion of tasks that were budgeted and approved in the fiscal year just ending.

Any monies placed in the Rate Stabilization Account in excess of the 3% of budgeted revenue amount will be applied to the first succeeding fiscal year either to pay expenditures of the first succeeding fiscal year for which rates are collected or to remain in the Rate Stabilization Account for use in a subsequent year. Any application of these monies in excess of 3% requires approval of the Board of Directors.

To the extent that any monies are utilized from the Rate Stabilization Account to fund expenditures currently provided for in the Uniform Rate, the rate being charged will be modified to take this funding into account.

Capital Assets Policy

The Chief Financial Officer is responsible for establishing the policies and procedures necessary to provide adequate internal control over capital assets. Policies and procedures shall be approved by the General Manager. Statements of policy shall be submitted to the Board of Directors for review. All capital assets acquired by the Agency shall be titled to the Agency and recorded in the capital assets records system. At a minimum, the capital assets records system shall contain the applicable information required by regulatory bodies. (Reference: Fla. Statutes, Chap. 274.02; Rules of the Auditor General, Chap. 10.450). An annual physical inventory of all movable equipment shall be taken under the direction of the finance department and reconciled to the capital asset records and general ledger control accounts in accordance with Fla. Statutes, Chap. 274.02 and Rules of the Auditor General, Chap. 10.480).

Debt Policy

The Agency's debt policy permits the following: (a) issuance of debt obligations on behalf of Tampa Bay Water to finance the construction or acquisition of infrastructure and other assets for the purpose of meeting its water supply obligations to the member governments; and (b) issuance of debt obligations to refund outstanding debt when market conditions indicate at least a 3% present value savings or when other management considerations, as recommended by the agency's financial advisors, indicate the refunding is appropriate. The debt policy requires that debt obligations be issued and administered in such a manner as to insure and sustain the long-term financial integrity of Tampa Bay Water and to achieve the highest possible credit rating for the Agency. Debt obligations must be consistent with the Board's Derivative Policy. Also, debt obligations shall not be issued and debt proceeds shall not be used to finance current operations without specific action of the Board and concurrence of the Agency's Bond Counsel as to the appropriateness of that action.

There is no legal limitation on the amount of debt that the Agency can issue. However, the Agency must be able to demonstrate that it can repay the debt from the revenues generated from water sales or other approved sources.

Tampa Bay Water's procedures for effective management of debt are as follows:

- Comply with all debt covenants and requirements of the bond resolution
- Evaluate potential refinancing of debt when present value savings equal or exceed 3% of current debt service
- Issue new debt at the most beneficial interest rates and only when required for financing of the Capital Improvement Program
- Maintain favorable bond ratings by effectively communicating the financial condition of Tampa Bay Water to rating agencies, bond holders and the public
- Utilize cooperative funding through grant programs whenever possible to reduce borrowing
- Schedule debt service payments to provide for gradual impacts on the uniform rate charged to the member governments over a period not to exceed the lesser of the useful life of the project or thirty years

Investment Policy

The objectives of the Agency's investment policy are safety, liquidity and return on investment. The primary objective is safety, i.e. the minimization of risk and the preservation and protection of investment principal. The second objective is to maintain sufficient liquidity at all times to meet all cash requirements that can reasonably be anticipated. The third objective is to maximize investment return, but only within the constraints of the first two objectives. The investment policy also establishes allowable investments, investment providers, and investment concentrations in furtherance of these objectives. The Agency currently maintains all of its deposit accounts in accounts that qualify as Public Deposit accounts as defined by Florida Statutes or have been purchased from Securities Investor Protection Corporation (SIPC) brokers/dealers with a long-term issuer rating in the "A" category or higher from both Standard & Poor's and Moody's Rating Services.

Accounting, Auditing and Financial Reporting Policies

Tampa Bay Water maintains a system of financial monitoring, control, and reporting for its operations and resources to provide an effective means of insuring that Agency goals and objectives are met.

- **Auditing:**

Each year the Agency has an annual financial audit performed by an independent certified public accounting firm. The results of this audit are included with the Agency's annual financial statements and are reported to the Board no later than March 1st of the subsequent year. The audited financial statements are available on the Tampa Bay Water website.

The Agency's independent auditors are selected in accordance with the Agency's Auditor Selection Policy and applicable Florida Statutes.

- **Basis of Accounting and Accounting Systems:**

The Agency's financial records and the annual financial statements are maintained on the accrual basis of accounting, consistent with Generally Accepted Accounting Principles (GAAP) and Governmental Accounting Standards Board (GASB) pronouncements applicable to an enterprise fund. In addition, the Agency follows the rules of the Auditor General of the State of Florida which are applicable to the Agency and utilizes the State of Florida Uniform Accounting System. The Agency's accounting system also includes an encumbrance system for tracking purchase commitments.

- **Performance Audit:**

The Agency is required to have a performance audit and management study of its operations at five-year intervals. The performance audit and management study reviews program results and makes recommendations regarding the Agency's governance structure and the proper, efficient, and economical operation and maintenance of the Agency's water supply facilities. The latest performance audit was completed in fiscal year 2015 by KPMG, LLP.

Highlights of the Capital Improvement Program

Tampa Bay Water's Capital Improvement Program (CIP) is intended to identify all projects that:

- Ensure the public has sufficient water supplies
- Meet the compliance obligations of the Amended and Restated Interlocal Agreement
- Improve the reliability of the regional system
- Have been recommended through the renewal and replacement analysis

The CIP is primarily a planning document that is updated annually and subject to changes as the needs for specific projects become more defined and final approval of projects is adopted by the Tampa Bay Water Board of Directors.

For those projects receiving funding through the Uniform Rate, the Renewal and Replacement Fund or the Capital Improvement Fund, the 2019 CIP Budget is the basis for budgeted expenditures when adopting the 2019 Annual Budget

Goals

The following goals are used by Tampa Bay Water staff to develop the annual capital budget and the CIP:

- Identify and prioritize capital improvements projects through a coordinated departmental effort that considers the integration of planning and development, engineering, construction, and financing requirements.
- Classify requested projects to ensure the planned activity meets the requirements for a capital project.
- Develop a time line for each project being considered.
- Develop a funding scenario for each project that identifies a funding source, a cash flow estimate, and future operating costs, if applicable.

Energy Management Program

Tampa Bay Water is completing a number of individual energy-saving projects. Tampa Bay Water developed an Energy Management Program roadmap with a programmatic approach to improve energy efficiency through implementation of emerging technology and operational changes. The Energy Management Program Roadmap:

- Provides an action plan that sets expectations and principles, and establishes measurable targets across the organization.
- Identifies elements of technology and energy infrastructure to enhance financial stability and sustainability of Tampa Bay Water operations.
- Provides a basis to analyze the relationship between decisions that affect annual operations/maintenance and capital budgeting.

Renewal and Replacement Program

Tampa Bay Water's Renewal and Replacement Program includes a prioritized long-term plan for renewal, repair, or replacement of assets that will result in sustainable infrastructure. The Program identifies the required projects and their timing based on a risk-based approach that considers criticality, remaining useful life, and risk.

Phase 1 Mitigation Projects

The Phase 1 Mitigation Plan is an on-going program required by Tampa Bay Water's consolidated Water Use Permit. Its purpose is to provide long-term mitigation at wetland and lake sites that were impacted by historical groundwater pumpage at the central system wellfields, and are predicted to not fully recover after the mandated groundwater pumpage cutback to 90 mgd. The Phase 1 Mitigation Plan currently includes a list of 10 mitigation projects.

Major Goals and Initiatives for Upcoming Fiscal Year

The Fiscal Year 2018 budget was put together with important agency policy goals and initiatives in mind. Those goals and initiatives included:

- Meeting the performance requirements of the Master Water Supply Contract to provide high-quality water to our six-member governments.

- Operating our water supply facilities to Improve supply delivery while also maintaining full compliance with all regulatory permits.
- Focusing on achieving the goals specified in the agency's board-approved 2016 strategic plan.
- Focusing on continually improving the efficiency and effectiveness of the agency's operations through ongoing Implementation of the Agency's asset management program of RISE.
- Addressing key recommendations from the 2010 and 2015 Performance and Management Report and allocating our staff and financial resources to meet the boards' objectives for a sustainable and affordable water supply system.
- Continuing to balance and blend our multiple supplies of water sources to deliver high quality, affordable water to our member governments.
- Examining the agency's use of outside consultants and evaluating staffing needs across the agency to ensure both human and fiscal resources are being efficiently allocated.
- Performing feasibility studies on future water supply projects and completing the future needs analysis to support the update of the Long-Term Master Water Plan.
- Refining the models used to accurately Predict the need for new water supplies in the future.
- Safeguarding the public's investment of \$1.25 billion In the region's water supply and delivery system to ensure that both the water quality and water quantity meet the needs of the 2.5 million people in our region. Protecting that investment includes:
 - Focusing on the safety and security of our employees and our water supply facilities by preparing and exercising procedures and emergency preparedness plans for the staffing and operation of our water production facilities in disaster events.
 - Renewing and replacing existing Infrastructure to ensure the optimal operation of our facilities over time.
 - Continuing to award community, environmental and educational organizations for projects that promote the protection of our drinking water sources through the Source Water Protection Mini-Grant Program.
 - Continuing to develop and Implement an employee training and knowledge retention program to address the succession planning required over the next several years as long-term employees leave the agency.
 - Expanding the agency's outreach and education program to underscore the importance of a reliable, sustainable water supply for economic and regional growth and development.
 - Working with our colleagues around the country in the continuing research into changes in weather patterns and the Impact of climate change upon the surface water systems serving our area.
 - Maintaining a strong relationship with the Southwest Florida Water Management District, the Florida Department of Environmental Protection, and other regulatory agencies to ensure open and honest communication on regulatory, planning and financial matters.

Planning for the Future

Planning for the future is an on-going process at Tampa Bay Water that includes more than potential new supplies. Our long-term planning process includes analyses of future demand, conservation potential, supply reliability, water shortage mitigation planning and hydrologic uncertainty – all wrapped up in the Long-Term Master Water Plan planning process.

This 20-year plan is a framework for meeting the region's future drinking water needs. The Long-Term Master Water Plan (LTMWP) identifies future water needs and potential water supply projects that could be designed and built to meet those needs for the region.

The plan, which was instated in 1998, is updated every five years; each update must be approved by the agency's board of directors. The latest update was completed in December 2018. Tampa Bay Water's current supply is expected to meet the region's water needs through 2028, even with projected growth. We are investigating potential new supplies now because it can take 10 years or more to investigate, design, permit, fund, build and startup a new water supply project.

The planning process includes data from a comprehensive demand forecasting model that help us predict future water demands by analyzing water use data, weather, demographic and economic data. Our Demand Management Plan quantifies potential water savings from passive and active conservation efforts. Planning for dry times is also part of the process. Operational and supply uncertainty is forecasted and modeled, to help understand how to mitigate and manage that risk.

Altogether, these models and plans forecast how much water will be needed in the future and when, so we can plan new supplies at the right time to keep our region growing and thriving.

The shortlisted projects for additional feasibility study to meet the initial phase of the regional water supply needs are:

- New Groundwater Treatment Plant via Net Benefit from the SHARP Program
- Tampa Bay Seawater Desalination Plant Expansion with Existing Source Water
- Regional Surface Water Treatment Plant Expansion with Existing Source Water
- The goal of additional feasibility studies is to select one of the above projects for implementation to meet the initial regional water supply needs by 2028. Either of the remaining projects or another one of the highly ranked projects from the 2018 Plan update can then be coupled with the selected project to meet the long-term regional supply needs within the 2040 planning period. The required implementation timing of these projects depends on the selected project to meet south Hillsborough County needs, and the implementation of the Tampa Augmentation Program and/ or other projects that could affect the need for new supplies. The projects shortlisted for further evaluation to meet the short-term needs of south Hillsborough County are:
- New Groundwater Wellfield and Treatment Plant via Net Benefit from South Hillsborough Aquifer Recharge Program
- Pipeline from the Regional Facilities Site to the Balm area of south Hillsborough County.

Potential South Hillsborough County Water Supply Projects

Tampa Bay Water has adequate regional supply to meet South Hillsborough County's projected demands by 2025; however, the Agency's ability to meet the projected demand is constrained by existing regional infrastructure and permitted capacity of the South-Central Hillsborough Regional and Brandon Urban Dispersed wellfields. Tampa Bay Water will need to either expand an existing Hillsborough County's point of connection or install a new point of connection to meet projected needs in 2025 and beyond.

Potential infrastructure improvement concepts and associated capacity increases were identified and evaluated as part of the LTMWP based on several factors, including capital costs, operations and maintenance costs, reliability and redundancy, constructability, and operational complexity. Projects were shortlisted for further evaluation: New regional feed pipeline to Balm area and New Groundwater Treatment Plant via net benefit from SHARP. New regional feed pipeline to Balm area includes the delivery of existing regional supply to a new Point of Connection in

Balm area via approximately 20 miles of 42-inch transmission main from the Tampa Bay Water Regional Facilities Site to the Balm Area, which could supply up to 25mgd. New Groundwater Treatment Plant includes the early implementation of the groundwater treatment plant via net benefit from SHARP, the first phase of which could provide an estimated 7.5 mgd of new supply to the south Hillsborough County Area.

Executive Director

The Government Finance Officers Association of the United States and Canada (GFOA) presented a Distinguished Budget Presentation Award to Tampa Bay Water, Florida for its fiscal year 2018 annual budget. In order to receive this award, a government unit must publish a budget document that meets criteria as a policy document, an organizational guide, a financial plan, and a communication device.

This award is valid for a period of one year only. We believe our current budget continues to conform to program requirements, and we are submitting it to GFOA to determine eligibility for another award.

Tampa Bay Water's Board of Directors

Tampa Bay Water is often cited as a model of regional cooperation, thanks to the spirit of regionalism that created the utility as well as the continual regional efforts of our board of directors. Each elected official on our nine-member board represents an individual city or county that we serve, but at the dais, each also represents the Tampa Bay region. The policy decisions and directives of our board ensure our region has adequate and sustainable drinking water to support our economy, environment and way of life.

INDEPENDENT AUDITOR'S REPORT

To the Board of Directors of
Tampa Bay Water, A Regional Water Supply Authority
Clearwater, Florida

Report on the Financial Statements

We have audited the accompanying financial statements of Tampa Bay Water, A Regional Supply Authority (the "Agency"), as of and for the year ended September 30, 2018, and the related notes to the financial statements, which collectively comprise the Agency's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the Agency as of September 30, 2018, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters***Required Supplementary Information***

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis (on pages 27 through 40), the schedule of agency proportionate share of the net pension liability – Florida Retirement System, the schedule of agency contributions – Florida Retirement System, the schedule of agency proportionate share of the net pension liability – Health Insurance Subsidy Program, the schedule of agency contributions – Health Insurance Subsidy Program, and the schedule of changes in the Total OPEB Liability and Related Ratios – Other Post-Employment Benefits Plan (on pages 95 through 101) be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

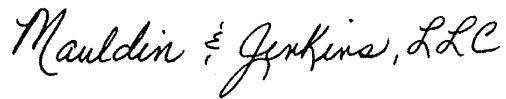

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Agency's basic financial statements. The introductory section, budgetary comparison schedule fiscal year 2018, schedule of debt service coverage – utility system revenue bonds Series 2001A, 2004, 2005, 2010, 2011, 2011A, 2013, 2015A, 2015B, 2016A, 2016B, and 2016C, and statistical section are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The schedule of debt service coverage – utility system revenue bonds Series 2001A, 2004, 2005, 2010, 2011, 2011A, 2013, 2015A, 2015B, 2016A, 2016B, and 2016C is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the schedule of debt service coverage – utility system revenue bonds Series 2001A, 2004, 2005, 2010, 2011, 2011A, 2013, 2015A, 2015B, 2016A, 2016B, and 2016C is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

The introductory section, budgetary comparison schedule fiscal year 2018, and statistical section have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated February 11, 2019, on our consideration of the Agency's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Agency's internal control over financial reporting and compliance.

Management's Discussion and Analysis

Tampa Bay Water
(A Regional Water Supply Authority)
Management's Discussion and Analysis

Year Ended September 30, 2018

This section of Tampa Bay Water, A Regional Water Supply Authority's (the Agency) annual financial report presents management's analysis of the Agency's financial performance during the fiscal year ended September 30, 2018. Please read it in conjunction with the financial statements, which follow this section.

Financial Highlights

- The Agency owns and operates facilities having a net book value of \$1.22 billion to provide water to its six Member Governments. Financial data for the fiscal year ended September 30, 2018, reflects the Agency's operations and maintenance of its existing facilities, as well as the development of new facilities to meet the region's future water needs. The facilities operating in 2018 included 13 wellfield systems, the Enhanced Surface Water System, and the Seawater Desalination Facility. The Enhanced Surface Water System comprises the Regional Surface Water Treatment Plant, High Service Pumping Station, Tampa Bypass Canal Pump Station and Pipeline, Alafia River Intake and Pump Station, and C.W. Bill Young Regional Reservoir. Additionally, operating facilities include Cypress Creek Pump Station, Keller Hydrogen Sulfide Treatment Facility and Lithia Hydrogen Sulfide Treatment Facility, as well as various booster stations, water treatment facilities, and approximately 270 miles of collection mains and large-diameter potable water transmission mains. The Agency also has administrative, laboratory, and infrastructure management facilities in Cypress Creek and an administrative facility in Clearwater. The Agency is focused on the efficient and cost-effective management of this integrated system through improved processes, use of new technologies, and appropriate staffing. The Agency is currently engaged in a strategic planning process, which will further focus Agency activities for the future. A management and performance audit was also completed in fiscal year 2015, which outlines the Agency's strengths and provides additional focus for enhancements in operational efficiency.
- The Agency's net position increased \$4.4 million or 0.56% in fiscal 2018.
- Decreased water demand from its six members resulted in a decrease in water production from 179.3 mgd in 2017 to 169.7 mgd in 2018. The decrease in demand is largely a result of the City of Tampa purchasing 6.23 mgd in 2017 due to a one-hundred year drought that impacted the region and not purchasing any water from the Agency in 2018

Tampa Bay Water
(A Regional Water Supply Authority)
Management's Discussion and Analysis
Year Ended September 30, 2018

Financial Highlights (continued)

- During 2018, the Agency's revenue from water sales was \$160.9 million. In addition, \$3.0 million was transferred to the Rate Stabilization Account in accordance with contractual obligations with the Agency's members and Agency accounting policies, resulting in a net increase in revenue recognized of \$1.8 million from 2017 to 2018.
- The Agency's operating expenses increased by \$1.4 million, or 2.03%, from 2017 to 2018 as a result of the 2018 budget policies.

Overview of the Financial Statements

This annual report consists of two parts: management's discussion and analysis of the financial statements and the financial statements. The financial statements also include notes that explain the information contained in the financial statements in greater detail.

Required Financial Statements

The financial statements of the Agency use accounting methods similar to those used by private sector companies. The statement of net position includes all of the Agency's assets and deferred outflows of resources and liabilities and deferred inflows of resources and provides information about the nature and amounts of investment in resources (assets) and the obligations to Agency creditors (liabilities). The assets and liabilities are presented in a classified format, which distinguishes between current and noncurrent assets and liabilities. Current assets are those assets expected to be converted to cash or used to pay current liabilities within 12 months. Current liabilities are those expected to be paid within 12 months. Conversely, noncurrent assets and liabilities are those expected to extend beyond a 12-month period. The statement of net position also provides the basis for computing rate of return, evaluating the capital structure of the Agency, and assessing the liquidity and financial flexibility of the Agency.

All of the current year's revenues and expenses are accounted for in the statement of revenues, expenses, and changes in net position. This statement reports information about the Agency's activities and measures the success of the Agency's operations over the past year.

The final required financial statement is the statement of cash flows. The primary purpose of this statement is to provide information about the Agency's sources and uses of cash during the reporting period. The statement reports cash receipts, cash payments, and net changes in cash resulting from operating, investing, and financing activities and provides answers to such questions as where cash came from, what was cash used for, and what was the change in the cash balance during the reporting period.

Tampa Bay Water
(A Regional Water Supply Authority)
Management's Discussion and Analysis
Year Ended September 30, 2018

Required Financial Statements (continued)

In addition, the annual report included required supplementary information related to pensions and other post-employment benefits as required by GASB.

Financial Analysis of the Agency

Our analysis of the Agency begins with a measure of the Agency's financial position or financial health by reporting its assets and deferred outflows of resources and liabilities and deferred inflows of resources and the difference between them, as "net position." Over time, increases or decreases in the Agency's net position are one indicator of whether its financial health is improving or deteriorating. However, other nonfinancial factors such as new water supply facilities, water demand, economic conditions, population growth, state and federal regulation, and changes in government legislation must also be considered in evaluating the Agency's financial health. Consideration also needs to be given to the terms of the Agency's agreements with its members under which water rates are established based on budgeted operating and capital costs, as well as certain reserve requirements. The statement of revenues, expenses, and changes in net position provides information that is useful in evaluating whether the Agency has successfully recovered all its costs through its water rates and other charges, as well as its creditworthiness.

Net Position

A summary of the Agency's statements of net position is presented in Table A-1.

Year Ended September 30, 2018

Financial Analysis of the Agency (continued)

Change in Net Position (continued)

Table A-2 reflects the statements of revenues, expenses, and changes in net position and provides information as to the nature and source of these changes.

As shown in Table A-2, the change in net position increased in 2018 from 2017 by \$4.4 million, or 0.56%.

As illustrated in the following charts, total water sales billed to Member Governments under the Uniform Rate was \$160.5 million in 2018 compared to \$156.1 million in 2017. Demand decreased by (5.35)% from 179.3 mgd (millions of gallons per day) in 2017 to 169.7 mgd in 2018. The decrease in demand is largely a result of the City of Tampa purchasing 6.23 mgd in 2017 due to a one-hundred year drought that impacted the region and not purchasing any water from the Agency in 2018.

Amounts billed under the Uniform Rate differ from the total revenue from water sales by the amount of water sales revenue from the Tampa Bypass Canal.

Annual Water Sales Under the Uniform Rate

Tampa Bay Water
 (A Regional Water Supply Authority)
 Management's Discussion and Analysis
 Year Ended September 30, 2018

Financial Analysis of the Agency (continued)

In its 2018 budget process, the Agency continued to focus on holding its controllable expenses to its previous year's actual expenditure levels wherever operationally feasible. As a result of this focus, the Agency's operating expenses increased in 2018 by \$1.4 million from 2017.

Depreciation expense increased by \$0.3 million in 2018 from 2017.

Investment revenue, after capitalization, increased by \$0.71 million from 2017 to 2018. The Agency continues to work with its Investment Advisors to diversify the Agency's investment portfolio helping the Agency earn more in investment revenue.

Interest expense decreased \$1.4 million, net of interest capitalized in 2018. This net decrease is due primarily to a \$1.5 million decrease in the interest on bond payments.

Tampa Bay Water
(A Regional Water Supply Authority)

Management's Discussion and Analysis

Year Ended September 30, 2018

Financial Analysis of the Agency (continued)

Loss on disposal of capital assets consists of the net gain or loss from sale or disposal of obsolete, damaged, or surplus equipment and property and the write-off of costs of discontinued projects. In 2018 the net gain is \$6.0 million. The primary reason for the loss is because in 2018 the agency abandoned the North Pasco Wells and the Eagles Production Wells. North Pasco Wells net asset value of \$2.1 million, and the Eagles Production Wells net asset value of \$3.4 million were written off. Removing these two wells from the active operating inventory saves operating and maintenance costs, renewal and replacement capital, and reduces the agency's exposure to claims arising from the Tampa Bay Water Well Mitigation Policy (Chapter 49B-3.005, FAC) without reducing system reliability.

Capital Assets and Long-term Debt

The Agency has a net investment of \$1,222.0 million and \$1,250.6 million at September 30, 2018, and 2017, respectively, in a broad range of infrastructure, including wellfields, water treatment and pumping facilities, transmission mains, buildings, a reservoir, and other maintenance and administration equipment as shown in Table A-3. The Agency has an additional \$316.4 million invested in water capacity rights at the production various wellfields, which is a \$1.6 million reduction due to the abandonment of Eagles Production Wells. The abandonment of North Pasco Wells did not reduce the water capacity rights and the North Pasco Wells were not being used for routing production are no longer needed because the Starkey/North Pasco Wellfields are now connected to the regional supplies.

Financial Analysis of the Agency (continued)

Bond Ratings	Limitations of Debt
<p>Agency ratings from Moody's, Standard & Poor's and Fitch are Aa1, AA+, and AA+, respectively. The outstanding bonds for Series 2001A, 2004 and 2005 bonds carry insurance with Financial Guaranty Insurance Company. The Series 2010, 2011, 2011A, 2013, 2015A, 2015B, 2016A, 2016B, and 2016C bonds do not carry insurance. Financial Guaranty Insurance Company ratings from Moody's, Standard & Poor's and Fitch were withdrawn in 2009.</p>	<p>Bond covenants allow for the issuance of additional debt, on parity, as to lien, on the net revenues of the Agency provided certain net earnings ratios are met. The major criteria are (1) that the net revenues (as defined in the covenants) for any 12 consecutive months selected by the issuer, of the 24 months immediately preceding the issuance of the additional bonds, together with the fund balance (as defined in the covenants) on the last day of such 12-month period, were equal to at least 125% of the debt service on the outstanding bonds during such 12-month period and (2) the net revenues for such 12-month period were equal to at least 100% of (a) the debt service due on the outstanding bonds for the 12-month period, (b) any required deposit to the Renewal and Replacement Fund, and (c) any required deposit to the Reserve Fund. The Agency is in compliance with all required financial and nonfinancial debt covenants.</p>

Tampa Bay Water
(A Regional Water Supply Authority)
Management's Discussion and Analysis
Year Ended September 30, 2018

Financial Analysis of the Agency (continued)

Table A-4
Cost of Capital
(In Millions)

	Debt Balance	Average Coupon Rate %
2001A bonds	\$ 50.0	5.93
2004 bonds	18.5	5.25
2005 bonds	138.5	5.50
2010 bonds	6.4	5.00
2011 bonds	48.1	5.00
2011A bonds	46.2	4.90
2013 bonds	75.3	4.84
2015A bonds	180.8	4.14
2015B bonds	94.0	3.08
2016A bonds	96.6	4.44
2016B bonds	32.4	3.49
2016C bonds	55.3	5.00
	\$ 842.1	

Under the Agency's budgetary process, rates are established to provide adequate coverage for existing and planned additional debt. This is demonstrated by the Agency's coverage ratios, which are 1.51 and 1.49 at September 30, 2018, and 2017, respectively. These coverage ratios are another indicator of the Agency's financial strength and future borrowing capability.

Total debt service on bonds	\$ 70.1	\$ 70.1
Required deposit to Capital Improvement Fund	-	5.2
Required deposit to Renewal and Replacement Fund	-	3.2
Total debt service and reserve requirements	\$ 70.1	\$ 78.5
Debt service and reserve coverage (times)	1.11	1.00
Fund balance (Note 3)	\$ 28.1	\$ 26.3
Net revenue plus fund balance	\$ 106.1	\$ 104.8
Debt service coverage (times)	1.51	1.49

Note 1: Investment revenue does not include interest on construction funds of \$0.2 million and \$0.1 million in 2018 and 2017, respectively, or unrealized investment losses of \$0.6 million in 2018 and unrealized losses of \$0.7 million in 2017.

Note 2: Operation and maintenance expenditures include capital expenditures for maintenance of the existing system of \$1.6 million and \$1.3 million in 2018 and 2017, respectively.

Note 3: Fund balance is defined by the Master Bond Resolution and is calculated as of the prior year-end in accordance with the Master Bond Resolution.

More information about the Agency's Long-Term Debt is disclosed in the Notes to Financial Statements under note 10, title Long-Term Debt and Other Noncurrent Liabilities.

Tampa Bay Water
(A Regional Water Supply Authority)
Management's Discussion and Analysis
Year Ended September 30, 2018

Financial Analysis of the Agency (continued)

Economic Factors and Next Year's Budget and Rates

The Agency's rate structure consists of a fixed cost portion to ensure funding of necessary activities and debt service and a variable cost portion to provide funding for costs, which fluctuate directly with production.

The Agency's Board of Directors and management considered many factors when developing the annual budget and setting the fiscal year water rates (Uniform Rate). These factors include the estimated demands provided by the Agency's Member Governments, which in turn consider such factors as anticipated population growth, environmental conditions, and the economy of the region as a whole. Budgeted demand for 2019 increased by 6.3 million gallons per day over the 2018 budgeted demand. The 2019 budgeted expenditures increased by \$10.2 million, or 6.07%, with this increase the Agency increased the use of rate stabilization funds from \$0.00 million in 2018 to \$1.15 million in 2019. The main reason for the increase in budgeted expenses is due to the following increases: \$1.3 million in pay-go funding, \$1.7 million variable cost (due to higher demand), \$1.7 million in personnel services (due to FRS contribution related to GASB 68), and \$3 million in Renewal and Replacement projects. The budgeted Uniform Rate for 2019 is \$2.5590 per thousand gallons, which is the eight consecutive year at this rate.

The Agency uses surveys of its Member Governments and local employment market rates when establishing its job classifications and pay plan. These indicators were also taken into consideration when adopting the Agency budget for fiscal year 2019.

Requests for Information

This financial report is designed to provide a general overview of the Agency's finances for those having an interest therein. Questions concerning any of the information provided in this report or requests for additional information should be addressed to the Chief Financial Officer and Administration at 2575 Enterprise Road, Clearwater, FL, 33763. Information about the Agency is also available on its website at www.tampabaywater.org.

Tampa Bay Water
(A Regional Water Supply Authority)

Notes to Financial Statements

September 30, 2018

1. Organization

Tampa Bay Water, A Regional Water Supply Authority (the Agency), formerly West Coast Regional Water Supply Authority (the Predecessor Authority), was created on October 25, 1974, by enabling state legislation under *Florida Statute* Sections 163.01, 373.1962, and 373.1963. Hillsborough, Pasco, and Pinellas counties and the cities of St. Petersburg, Tampa, and New Port Richey comprise the Member Governments of the Agency. A governance study was adopted by the Florida Legislature in 1997 (the 1997 Legislation) that amended Section 373.1963, *Florida Statutes*.

As part of the 1997 Legislation, the Agency was created by the Interlocal Agreement and entered into the Master Water Supply Contract with its Member Governments for a term of 40 years. Pursuant to the Amended and Restated Interlocal Agreement and Master Water Supply Contract:

- The Agency will charge a uniform per-gallon wholesale rate to Member Governments for the wholesale supply of drinking water, with one exception for the City of Tampa. The Agency will charge a separate rate to the City of Tampa for water delivered from the Tampa Bypass Canal.
- All Member Governments relinquished to the Agency their individual rights to develop drinking water supplies subject to certain exceptions as defined in the Amended and Restated Interlocal Agreement.
- The Agency has the absolute and unequivocal obligation to meet the quality water needs of the Member Governments as defined in the Master Water Supply Contract.
- The Member Governments are required to maintain and collect such rates or other charges for the use of the products, services, and facilities of the respective members' water utility systems to the extent necessary to fund the timely payment of their respective obligations and liabilities under the Master Water Supply Contract.

Tampa Bay Water
(A Regional Water Supply Authority)

Notes to Financial Statements

September 30, 2018

2. Summary of Significant Accounting Policies

Operating Revenue and Expense

The Agency considers all revenue and expense associated with the delivery of water to customers to be operating activities. All other revenue and expense are considered to be nonoperating activities.

Net Position

Net position is classified into three components:

- *Net Investment in Capital Assets* – This component of net position consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of bonds, mortgages, notes, or other borrowings that are attributable to the acquisition, construction, or improvement of those assets. Deferred outflows of resources and deferred inflows of resources that are attributable to the acquisition, construction, or improvement of those assets or related debt are also included in this component of net position. If there are significant unspent related debt proceeds or deferred inflows of resources at the end of the reporting period, the portion of the debt or deferred inflows of resources attributable to the unspent amount is not included in the calculation of net investment in capital assets. Instead, that portion of the debt or deferred inflows of resources is included in the same net position component as the unspent proceeds.
- *Restricted* – This component consists of net position whose use is subject to external constraints (such as through debt covenants) by creditors, grantors, contributors, or laws or regulations of other governments or constraints imposed by law through constitutional provisions or enabling legislation.
- *Unrestricted Net Position* – This component consists of net position elements that do not meet the definition of restricted or net investment in capital assets.

When the Agency incurs an expenditure where it can use both restricted and unrestricted funds the agency will first use restricted funds.

The accounting policies and practices of the Agency conform to accounting principles generally accepted in the United States applicable to an enterprise fund of a government unit.

Tampa Bay Water
(A Regional Water Supply Authority)

Notes to Financial Statements

September 30, 2018

2. Summary of Significant Accounting Policies (continued)

Measurement Focus and Basis of Accounting

The Agency is accounted for on the flow of economic resources measurement focus and uses the accrual basis of accounting in the preparation of its annual financial statements. The accounting and reporting policies of the Agency conform to the accounting rules prescribed by the Governmental Accounting Standards Board (GASB).

Under the provisions of the Agency's Amended and Restated Interlocal Agreement and the Master Water Supply Contract, the Agency establishes a single uniform rate for sale of quality water to Member Governments, provided, however, that a separate rate is established for sale of water from the Tampa Bypass Canal to the City of Tampa. The rate to be charged in a fiscal year to the Member Governments for water may include the following components as defined by the agreements: (1) operation, maintenance, and administrative costs; (2) debt service charges; (3) renewal and replacement charges; (4) bond coverage costs; (5) capital improvement charges; and (6) operating reserve funds. The Agency may also establish a rate stabilization fund to be funded from the operation, maintenance, and administrative costs or operating reserve funds. This method of rate setting results in costs being included in the determination of rates in different periods than when these costs are recognized for financial statement purposes.

The Agency capitalizes certain costs or defers certain revenue when three criteria are met. The Agency meets the required criteria since its rates are established by its Board in accordance with the Amended and Restated Interlocal Agreement and Master Water Supply Contract, rates are designed to recover Agency costs, and the Agency can reasonably expect to collect such rates.

Cash Equivalents

For purposes of the statement of cash flows, cash equivalents are defined as short-term, highly liquid investments that are both readily convertible to known amounts of cash and have original maturities of 90 days or less.

Investments

Investments are reported at fair value in the statement of net position, except for money market funds and U.S. government obligations with original maturities of less than one year, which are reported at amortized cost as permitted by GASB Statement No. 31, *Accounting and Financial Reporting for Certain Investments and for External Investment Pools*. All changes in the fair value of investments are recognized as gains or losses in the statement of revenues, expenses, and changes in net position.

Tampa Bay Water
(A Regional Water Supply Authority)

Notes to Financial Statements

September 30, 2018

2. Summary of Significant Accounting Policies (continued)

Materials and Supplies Inventories

Materials and supplies inventories consist primarily of spare parts and are stated at the lower of average cost or market. Average cost approximates the first-in, first-out method.

Capital Assets

It is the Agency's policy to capitalize property and equipment having an original cost in excess of \$1,000 and a useful life longer than one year, except for computer software, which is capitalized when the original cost exceeds \$25,000. Capital assets are stated at cost. Depreciation is computed using the straight-line method over the estimated useful lives of the assets as follows:

	<u>Life in Years</u>
Land improvements	10–99
Buildings	20–50
Wells and wellfield improvements	5–75
Water treatment and pumping facilities	10–50
Transmission mains	14–75
Reservoir	100
Other equipment and software	3–20

Maintenance, repairs, and minor renewals are charged to expense as incurred. Expenditures that materially increase value, increase capacity, or extend useful lives are capitalized. Capital assets are removed (net of accumulated depreciation) upon retirement or disposition. Related gains or losses are charged to nonoperating activities.

Water Capacity Rights

Water capacity rights represent the Agency's rights in certain wholesale water supply wellfields. The Agency accounts for the water capacity rights in accordance with the provisions of GASB Statement No. 51, *Accounting and Financial Reporting for Intangible Assets*. This statement requires that indefinite-lived intangible assets not be amortized, but instead be tested for impairment at least annually and whenever events or changes in circumstances indicate that the carrying value may not be recoverable. In FY18 the Agency abandoned the Eagles Wells which reduced the Agency's capacity rights by 198,000 gallons per day. Also, in FY18 the Agency abandoned the North Pasco wellfield, which does not affect the aggregate capacity of the Consolidated Permit wellfield facilities.

Tampa Bay Water
(A Regional Water Supply Authority)

Notes to Financial Statements

September 30, 2018

2. Summary of Significant Accounting Policies (continued)

Impairment of Capital Assets and Insurance Recoveries

The Agency accounts for impairment of capital assets and insurance recoveries in accordance with the provisions of GASB Statement No. 42, *Accounting and Financial Reporting for Impairment of Capital Assets and for Insurance Recoveries*. This statement requires that capital assets be reviewed for impairment whenever events or changes in circumstances indicate that the service utility of the asset has declined significantly and unexpectedly. Impaired capital assets that will no longer be used are reported at the lower of carrying value or fair value. Impairment losses on capital assets that will continue to be used are measured using the method that best reflects the diminished service utility of the asset: restoration cost approach, service units approach, or deflated depreciated replacement cost approach. Insurance recoveries related to impairment losses are netted against the impairment loss if received in the same year; otherwise the recovery is reported as revenue in the year received. No impairment losses were recognized in 2018.

Capitalization of Interest

Interest costs incurred are capitalized as part of the cost of constructing capital assets. In instances where proceeds of the related debt are externally restricted to financing the construction, the interest earned on funds restricted for construction are offset against the interest costs capitalized.

Bond Issuance Costs, Bond Discounts, and Bond Premiums

The Agency accounts for bond issuance costs in accordance with the provisions of GASB Statement No. 65, *Items Previously Reported as Assets and Liabilities*. Bond issuance costs (related to insurance) are recorded as deferred charges, whereas bond discounts and premiums are recorded as a reduction of, or addition to, the face amount of bonds payable. All other bond issuance costs are expensed as incurred. Amortization of bond issuance costs, bond discounts, and bond premiums is calculated over the life of the bonds using the effective interest method and is reported as a component of interest expense.

Unamortized Losses on Debt Refunding

Losses resulting from current or advance refunding's of debt are deferred and amortized over the shorter of the life of the new debt or the remaining life of the old debt and are reported as deferred outflows of resources in accordance with GASB Statement No. 65. The amount amortized is reported as a component of interest expense.

Tampa Bay Water
(A Regional Water Supply Authority)

Notes to Financial Statements

September 30, 2018

2. Summary of Significant Accounting Policies (continued)

Commitments and Contingencies

Liabilities for loss contingencies arising from claims, assessments, litigation, fines and penalties, and other sources are recorded when it is probable that a liability has been incurred and the amount can be reasonably estimated.

Rate Stabilization

Under the Amended and Restated Interlocal Agreement and the Master Water Supply Contract, the Board of Directors may establish rates sufficient to fund a Rate Stabilization Account. The contracts also provide that funds collected in any year in excess of current costs may be deposited to the Rate Stabilization Account with Board approval. Funds placed in the Rate Stabilization Account are accounted for as deferred inflows of resources until the year in which the Board of Directors approves their use to meet current costs of the Agency.

Capital Contributions

Capital contributions represent capital grants from the Florida Department of Environmental Protection (FDEP). Contributions are recognized when all applicable eligibility requirements of the grant have been met, pursuant to GASB Statement No. 33, *Accounting and Financial Reporting for Nonexchange Transactions*. The Agency had \$0 in capital contributions during the year ended September 30, 2018.

Sales and Pledges of Receivables and Future Revenues

The Agency provides disclosure of pledged revenues in accordance with the requirements of GASB Statement No. 48, *Sales and Pledges of Receivables and Future Revenues and Intra-Entity Transfers of Assets and Future Revenue*, which establishes accounting and financial reporting standards for transactions in which a government receives, or is entitled to, resources in exchange for future cash flows generated by collecting specific receivables or specific future revenues. The Agency has no sales or pledges of receivables and future revenues except as discussed in Note 10.

Tampa Bay Water
(A Regional Water Supply Authority)

Notes to Financial Statements

September 30, 2018

2. Summary of Significant Accounting Policies (continued)

Pensions

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, the information about the fiduciary net position of the Florida Retirement System (FRS) and additions to/deductions from FRS Pension Plan and Health Insurance Subsidy Program (HIS) fiduciary net position have been determined on the same basis as they are reported by FRS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Pension plan investments are reported at fair value.

Implementation of New Accounting Pronouncements

In June 2015, the GASB issued Statement No. 75, *Accounting and Financial Reporting for Postemployment Benefits Other than Pensions*. This statement replaces the requirements of GASB Statements No. 45, No. 57, and No. 74 and establishes new accounting and financial reporting requirements for OPEB plans. GASB Statement No. 75 is effective for fiscal years beginning after June 15, 2017. The impact to the Agency was not significant. Additional information regarding GASB 75 is available in Note 12.

In January 2016, the GASB issued Statement No. 80, *Blending Requirements for Certain Component Units - Amended to GASB Statement No. 14*. This statement provides clarity about how certain component units incorporate as not-for-profit corporations should be presented in the financial statements of the primary state or local governments. This statement is effective for periods beginning after June 15, 2016. The impact to the Agency was not significant.

In March 2016, the GASB issued Statement No. 81, *Irrevocable Split-Interest Agreements*. This statement requires that a government that receives resources pursuant to an irrevocable split-interest agreement recognize assets, liabilities, and deferred inflows of resources at the inception of the agreement. Furthermore, this statement requires that a government recognize assets representing its beneficial interests in irrevocable split-interest agreements that are administered by a third party, if the government controls the present service capacity of the beneficial interests. This statement requires that a government recognize revenue when the resources become applicable to the reporting period. This statement is effective for periods beginning after December 15, 2016. The impact to the Agency was not significant.

In March 2017, the GASB issued Statement No. 85, *Omnibus 2017*. This Statement addresses a variety of topics including issues related to blending component units, goodwill, fair value measurement and application, and postemployment benefits (pensions and other postemployment benefits [OPEB]). This Statement is effective for periods beginning after June 15, 2017. The impact to the Agency's financial reporting was not significant

Tampa Bay Water
(A Regional Water Supply Authority)

Notes to Financial Statements

September 30, 2018

2. Summary of Significant Accounting Policies (continued)

Implementation of New Accounting Pronouncements (continued)

In May 2017, the GASB issued Statement No. 86, *Certain Debt Extinguishment Issues*. The primary objective of this Statement is to improve consistency in accounting and financial reporting for in-substance defeasance of debt by providing guidance for transactions in which cash and other monetary assets acquired with only existing resources—resources other than the proceeds of refunding debt—are placed in an irrevocable trust for the sole purpose of extinguishing debt. This Statement also improves accounting and financial reporting for prepaid insurance on debt that is extinguished and notes to financial statements for debt that is defeased in substance. This Statement is effective for periods beginning after June 15, 2017. The impact to the Agency’s financial reporting was not significant.

New Accounting Pronouncements – Not Yet Effective

In November 2016, the GASB issued Statement No. 83, *Certain Asset Retirement Obligations*. This statement addresses accounting and financial reporting for certain asset retirement obligations (AROs). An ARO is a legally enforceable liability associated with the retirement of a tangible capital asset. A government that has legal obligations to perform future asset retirement activities related to its tangible capital assets should recognize a liability based on the guidance in this Statement. This statement is effective for periods beginning after June 15, 2018. The impact to the Agency’s financial reporting has not been determined.

In January 2017, the GASB issued Statement No. 84, *Fiduciary Activities*. This Statement establishes criteria for identifying fiduciary activities of all state and local governments. The focus of the criteria generally is on (1) whether a government is controlling the assets of the fiduciary activity and (2) the beneficiaries with whom a fiduciary relationship exists. Separate criteria are included to identify fiduciary component units and postemployment benefit arrangements that are fiduciary activities. This Statement is effective for periods beginning after December 15, 2018. The impact to the Agency’s financial reporting has not been determined.

Tampa Bay Water
(A Regional Water Supply Authority)

Notes to Financial Statements

September 30, 2018

2. Summary of Significant Accounting Policies (continued)

New Accounting Pronouncements – Not Yet Effective (continued)

In June 2017, the GASB issued Statement No. 87, *Leases*. The objective of this Statement is to better meet the information needs of financial statement users by improving accounting and financial reporting for leases by governments. This Statement increases the usefulness of governments' financial statements by requiring recognition of certain lease assets and liabilities for leases that previously were classified as operating leases and recognized as inflows of resources or outflows of resources based on the payment provisions of the contract. It establishes a single model for lease accounting based on the foundational principle that leases are financing of the right to use an underlying asset. Under this Statement, a lessee is required to recognize a lease liability and an intangible right-to-use lease asset, and a lessor is required to recognize a lease receivable and a deferred inflow of resources, thereby enhancing the relevance and consistency of information about governments' leasing activities. This Statement is effective for periods beginning after December 15, 2019. The impact to the Agency's financial reporting has not been determined.

In April 2018, the GASB issued Statement No. 88, *Certain Disclosures Related to Debt, including Direct Borrowings and Direct Placements*. The objective of this Statement is to clarify which liabilities governments should include in their note disclosures related to debt. GASB is requiring direct borrowings and direct placements to be presented separately because they may expose a government to risks that are different from, or additional to, risks related to other types of debt. The statement also requires the disclosure of additional essential debt-related information for all types of debt, including amounts of unused lines of credit and assets pledged as collateral for debt. Also required to be disclosed are terms specified in debt agreements related to: Significant events of default with finance-related consequences, significant termination events with finance-related consequences, and significant subjective accelerated clauses. This Statement is effective for periods beginning after June 15, 2018. The impact to the Agency's financial reporting has not been determined.

Tampa Bay Water
(A Regional Water Supply Authority)

Notes to Financial Statements

September 30, 2018

2. Summary of Significant Accounting Policies (continued)

New Accounting Pronouncements – Not Yet Effective (continued)

In June 2018, the GASB issued Statement No. 89, *Accounting for Interest Costs Incurred Before the End of a Construction Period*. The objectives of this Statement are to enhance the relevance and comparability of information about capital assets and the cost of borrowing for a reporting period and to simplify accounting for interest cost incurred before the end of a construction period. This Statement establishes accounting requirements for interest cost incurred before the end of a construction period. Such interest cost includes all interest that previously was accounted for in accordance with the requirements of paragraphs 5–22 of Statement No. 62, Codification of Accounting and Financial Reporting Guidance Contained in Pre-November 30, 1989 FASB and AICPA Pronouncements, which are superseded by this Statement. This Statement requires that interest cost incurred before the end of a construction period be recognized as an expense in the period in which the cost is incurred for financial statements prepared using the economic resources measurement focus. As a result, interest cost incurred before the end of a construction period will not be included in the historical cost of a capital asset reported in a business-type activity or enterprise fund. This Statement is effective for periods beginning after December 15, 2019. The impact to the Agency’s financial reporting has not been determined.

In August 2018, the GASB issued Statement No. 90, *Majority Equity Interests*. The primary objectives of this Statement are to improve the consistency and comparability of reporting a government’s majority equity interest in a legally separate organization and to improve the relevance of financial statement information for certain component units. It defines a majority equity interest and specifies that a majority equity interest in a legally separate organization should be reported as an investment if a government’s holding of the equity interest meets the definition of an investment. A majority equity interest that meets the definition of an investment should be measured using the equity method, unless it is held by a special-purpose government engaged only in fiduciary activities, a fiduciary fund, or an endowment (including permanent and term endowments) or permanent fund. Those governments and funds should measure the majority equity interest at fair value. This Statement is effective for periods beginning after December 15, 2018. The impact to the Agency’s financial reporting has not been determined.

3. Permits and Regulations

The key regulations affecting the operations of the Agency are state regulations applicable to the Agency’s withdrawals of water from water sources and state and federal regulations applicable to operation of the Agency’s drinking water treatment facilities and distribution systems. Withdrawals of water are regulated under water use permits issued by the Southwest Florida Water Management District (the District). The water treatment facilities and distribution systems are regulated through permits issued by the Florida Department of Environmental Protection (FDEP).

Tampa Bay Water
(A Regional Water Supply Authority)

Notes to Financial Statements

September 30, 2018

3. Permits and Regulations (continued)

The Consolidated Permit, first issued by the District in January 1999, regulates withdrawals from 10 of the 13 regional wellfield systems operated by the Agency. The original Consolidated Permit included initial withdrawal limits for each wellfield (annual average) and for each well within each wellfield (peak month and annual average). A condition of the Consolidated Permit is to manage withdrawals from the wellfields to minimize environmental impacts through optimum distribution of pumping among all wells according to an approved operations plan.

Since January 1, 2003, the 10 wellfields of the Consolidated Permit no longer have individual withdrawal limits and are considered a single system for the purpose of measuring compliance with the permitted annual average withdrawal quantity. Combined withdrawals from the 10 wellfields are currently limited to 90 million gallons per day (mgd) on a 12-month running average basis. The Consolidated Permit was renewed in January 2011, granting continued authorization to withdraw an annual average of 90 mgd from these 10 wellfields for the next ten-year period. All of the conditions of the renewed Consolidated Permit remain essentially unchanged from the original permit authorization.

The remaining 3 wellfield systems, the South-Central Hillsborough Regional Wellfield, the Brandon Urban Dispersed Wells, and the Carrollwood Wells, are regulated under separate water use permits issued by the District. Withdrawals from the Brandon Urban Dispersed Wells are limited to 6 mgd on a 12-month running average basis. Withdrawals from the South-Central Hillsborough Regional Wellfield are limited to 24.1 mgd on a 12-month running average basis. The Carrollwood Wells can supply 0.82 mgd on a 12-month running average basis. Withdrawals from the Tampa Bypass Canal, which are used to provide water to the City of Tampa via augmentation of the Hillsborough River Reservoir as needed, are separately permitted and limited to 20 mgd on a 12 month running average basis.

The two surface water facilities that comprise the withdrawal component of the Enhanced Surface Water System are the Tampa Bypass Canal Pump Station and the Alafia River Pump Station. The water use permits for these two surface water sources allow the harvesting of a percentage of flow from these river systems above either a minimum threshold flow or pool elevation. It is estimated that the Enhanced Surface Water System yields on a long-term average basis approximately 90 mgd under normal hydrologic conditions. The Tampa Bypass Canal Pump Station and transmission facilities convey water from the Tampa Bypass Canal and Hillsborough River to the Regional Surface Water Treatment Plant and the Regional Reservoir.

Tampa Bay Water
(A Regional Water Supply Authority)

Notes to Financial Statements

September 30, 2018

3. Permits and Regulations (continued)

The Alafia River Pump Station and transmission facilities also convey water from the Alafia River to the Regional Surface Water Treatment Plant and the Regional Reservoir. It is estimated that the expanded permitted withdrawals of the Tampa Bypass Canal and the expanded Enhanced Surface Water System (including the Tampa Bypass Canal/Hillsborough River System, Alafia River, the Regional Reservoir and Surface Water Treatment Plant) will allow the Agency to meet the future drinking water needs of its six Member Governments through at least 2028.

The Regional Surface Water Treatment Plant (the Plant) was originally designed to treat up to 66 mgd from the surface water sources and deliver that water to the regional system. Completion of the Plant expansion occurred in fall of 2010. The Plant is now permitted to treat up to 120 mgd from the surface water sources. The C.W. Bill Young Regional Reservoir provides off-stream storage capacity so that the stored water can be utilized as a reliable water source when surface water is not available for withdrawal from the river systems. The current designed storage capacity of the reservoir is approximately 15.5 billion gallons. Production from the Tampa Bay Seawater Desalination Plant is also used to meet drinking water demands. The desalination facility is permitted to treat up to 25 mgd. The operational sustainable production capacity of the Regional Surface Water Treatment Plant and the desalination facility are less than each facility's permitted capacity.

The permitted quantity withdrawal limit for the 10 wellfields as stated in the Consolidated Permit is listed below together with the permitted quantities for the remaining four wellfields and the surface water facilities:

Water Supply Facility	Permitted Capacity in mgd
Consolidated Permit wellfields – total*	90.000
South-Central Hillsborough Regional Wellfield	24.100
Brandon Urban Dispersed Wells	6.000
Carrollwood Wells	0.820
Enhanced Surface Water System (consisting of Tampa Bypass Canal/ Hillsborough River, Alafia River, C.W. Bill Young Regional Reservoir)**	90.000
Tampa Bay Seawater Desalination Plant	25.000

Tampa Bay Water
(A Regional Water Supply Authority)

Notes to Financial Statements

September 30, 2018

3. Permits and Regulations (continued)

* Consolidated Permit wellfields: Cross Bar Ranch, Cypress Creek, Cypress Bridge, Morris Bridge, Starkey, South Pasco, Eldridge-Wilde, Cosme/Odessa, Section 21, and Northwest Hillsborough. These wellfields are permitted as a single system, and there is no annual withdrawal quantity assigned to any individual wellfield. These wellfields are operated in accordance with the Optimized Regional Operations Plan.

** The water use permits for the Tampa Bypass Canal/Hillsborough River and the Alafia River facilities do not have assigned average annual quantities. The permits authorize the harvest of a percentage of river flows after either a threshold flow or pool stage has been achieved in each river system. The quantity shown represents the estimated median year yield for these facilities based on projections using the past 30 years of historical data.

The following table summarizes the actual annual water quantity sold and billed to the Member Governments of the Agency under the Uniform Rate for the fiscal year ended September 30, 2018:

Member Government	Annual Water Quantity Sold (mgd)	Amounts Billed
Hillsborough County	60.99	\$ 57,692,990
City of New Port Richey	2.89	2,735,849
Pasco County	28.50	26,958,492
Pinellas County	48.78	46,139,263
City of St. Petersburg	28.50	26,961,032
Total current year water sales	169.66	\$ 160,487,626
Peak day production	206.28	

In 2018 the Agency sold an average of 5.50 mgd to the City of Tampa under the Tampa By-Pass Canal Surplus Water Agreement totaling \$315,441.

Other revenues for the Agency totaled \$65,352 in 2018.

4. Rate-Making Policies and Procedures

Under the provisions of the Master Water Supply Contract, the Agency establishes rates based on an Annual Estimate that sets forth the expected cost of providing wholesale water service to the Member Governments. The Annual Estimate is based on the Agency's budget for the forthcoming fiscal year. The Agency develops a uniform rate based on the Annual Estimate and the projected quantity of water expected to be delivered to customers.

Tampa Bay Water
(A Regional Water Supply Authority)

Notes to Financial Statements

September 30, 2018

4. Rate-Making Policies and Procedures (continued)

The uniform rate consists of a variable cost component and a fixed cost component. The variable cost rate is designed to recover Agency expenses that are directly related to the quantity of water delivered, primarily chemicals, electric power, and water purchased from the Cities of Tampa and New Port Richey. The variable cost rate is applied to the quantity of water delivered to Member Governments each month. The fixed cost rate is designed to recover Agency expenses incurred for the operation, maintenance, management, security, development, and financing of the water system. The fixed cost rate is assessed to Member Governments monthly based on one twelfth of the total annual fixed cost applied to the ratio of each member's annual water usage during the previous fiscal year divided by such usage of all Member Governments during such year. At fiscal year-end, each member's share of this fixed cost is recalculated based on the current year's usage. The intent and purpose of the rate structure is to provide an equitable means of matching the monthly billings with the Agency's monthly cash flow needs. Based on analyses and forecasts, fixed costs are currently estimated to constitute approximately 85% of the Annual Estimate.

5. Restricted Assets (cash, cash equivalents, investments)

Restricted funds are established to the extent required by bond resolutions for the Agency's debt and other contractual arrangements. Bond proceeds, water revenue, and investment revenue are utilized to maintain the various funds at their required levels. Amounts not needed to fund requirements may be used for any lawful purpose. The balances, as of September 30, 2018, components and descriptions of the various funds are as follows:

Construction funds	\$ 11,500,027
Debt Service Sinking Fund	50,714,307
Renewal and Replacement Fund	28,774,711
Capital Improvement Fund	21,920,586
Energy Savings Fund	553,050
Operations and Maintenance Reserve	4,041,153
Debt Service Reserves	70,475,606
Desal - Reserves	2,131,412
SWTP - Reserves	4,217,145
	\$ 194,327,997

Construction Funds – Construction funds account for unexpended debt proceeds and investment revenue thereon from the Utility System Revenue Bonds, Series 2013; the Florida Local Government Finance Commission loan; and third-party grants for construction.

Tampa Bay Water
(A Regional Water Supply Authority)

Notes to Financial Statements

September 30, 2018

5. Restricted Assets (cash, cash equivalents, investments) (continued)

Debt Service Sinking Funds – Sinking funds represent the principal and interest amounts for the next debt service payment due on the Series 2001A, 2004, 2005, 2010, 2011, 2011A, 2013, 2015A, 2015B, 2016A, 2016B, and 2016C bonds.

Renewal and Replacement Funds – Renewal and replacement funds are required for renewal and replacement of the water production, transmission, and treatment facilities and are based on 5% of gross revenues for the preceding fiscal year or such greater or lesser amount as may be determined appropriate by the system engineers.

Capital Improvement Funds – Capital improvement funds are restricted to payment of capital costs of acquiring and/or constructing additions or improvements to the water system.

Energy Savings Funds – Energy savings funds are restricted to payment of energy savings additions or improvements to the water system.

Operations and Maintenance Funds – Operations and maintenance funds are restricted for operating costs and are established at twice the monthly average variable costs as budgeted for each fiscal year.

Debt Service Reserve Funds – Debt service reserve funds are required to maintain the lesser of one year's maximum debt service or 125% of the average annual debt service for the Utility System Revenue Bonds Series 2001A, 2004, 2005, 2010, 2011, 2011A, 2013, 2015A, 2015B, 2016A, 2016B, and 2016C.

Desal and SWTP Reserve Funds - Reserve accounts established through O&M agreements. See note 14 for more information.

Bond resolutions place certain limitations on investments permitted by the various funds. When both restricted and unrestricted resources are available for use, it is the Agency's policy to use restricted resources first, then unrestricted resources as they are needed.

6. Deposits and Investments

Deposits

As of September 30, 2018, the total carrying amount of the Agency's deposits (unrestricted and restricted), exclusive of petty cash of \$1,450, was \$160,930,248. All the Agency's deposits with financial institutions are made with depository institutions that are members of the state of Florida's collateral pool, are placed in accounts designated as "public deposit" accounts covered by the collateral pool and, therefore, are considered to be insured.

Tampa Bay Water
(A Regional Water Supply Authority)

Notes to Financial Statements

September 30, 2018

6. Deposits and Investments (continued)

Investments

In August 2017, the Board of Directors approved Resolution 2017-002 which adopted a revised investment policy. The policy was revised to reflect more recent financial market conditions and investment practices. It also reflects the currently available investment instruments that the Agency wishes to utilize in the future. The scope of the revised investment policy clarifies that the overall policy applies to all surplus funds, to the extent there is no conflict with the Master Bond Resolution, and if there is a conflict, the Master Bond Resolution governs. Authorized investments in this policy will also be considered authorized investments for bond proceeds under the Master Bond Resolution, as amended, under other permitted investments. The Agency's investment policy permits investment in the following: (1) U.S. government securities, (2) U.S. government agencies (full faith and credit of the U.S. government), (3) federal instrumentalities (U.S. government-sponsored enterprises that are non-full faith and credit), (4) mortgage-backed securities, (5) bank accounts and nonnegotiable interest-bearing time certificates of deposit, (6) repurchase agreements; (7) commercial paper, (8) corporate notes, (9) bankers' acceptances, (10) state and/or local government taxable and/or tax-exempt debt, (11) registered investment companies (money market mutual funds), (12) supranationals and (13) intergovernmental investment pools.

The Agency's investments are reported at fair value in the statement of net position, except for money market funds and U.S. government obligations with original maturities less than one year, which are reported at amortized cost in accordance with GASB Statement No. 72.

Investments having a maturity of one year or less at time of purchase are recorded at amortized cost.

The credit ratings shown in the following table are a measure of credit risk, the risk that an issuer or other counterparty to an investment will not fulfill its obligations. The Agency's investment policies seek to limit exposure to credit risk by establishing minimum credit ratings that must be met and maintained by providers of certain types of investments. Policies also require that certain types of agreements be collateralized with investments authorized under the policies.

Tampa Bay Water
(A Regional Water Supply Authority)

Notes to Financial Statements

September 30, 2018

6. Deposits and Investments (continued)

Investments (continued)

Concentration of credit risk is the risk of loss attributed to the magnitude of a government's investment in a single issuer. Exclusive of investments issued or explicitly guaranteed by the U.S. government and investments in external investment pools and other pooled investments, the Agency had no investment concentrations in individual issuers in excess of 5% of its total investments at September 30, 2018.

Fair Value Measurements

In Fiscal Year 2016 Tampa Bay Water adopted GASB Statement No. 72,

Fair Value Measurement and Application. GASB Statement No. 72 defines fair value as the exit price that would be received to sell an asset or transfer a liability in the principal or most advantageous market in an orderly transaction between market participants on the measurement date. Fair value guidance also establishes a fair value hierarchy that requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. Based on the inputs used to determine fair value, a three-level fair value hierarchy is used as follows:

Level 1 – Valuations are based on observable inputs that reflect quoted market prices in active markets for identical assets and liabilities at the reporting date.

Level 2 – Valuations are based on (a) quoted prices for similar assets and liabilities in active markets, or (b) quoted prices for identical or similar assets and liabilities in markets that are not active, or (c) pricing inputs other than the quoted prices that are directly or indirectly observable at the reporting date. Level 2 assets include securities that are redeemable at or near the balance sheet date and for which a model was derived for valuation.

Level 3 – Valuations are based on pricing inputs that are unobservable and include situations where (a) there is little, if any, market activity for the investments, or (b) the investments cannot be independently valued, or (c) the investments cannot be immediately redeemed at or near the year-end.

The assets or liability's fair-value measurement level within the fair-value hierarchy is based on the lowest level of any input that is significant to the fair-value measurement.

Tampa Bay Water
(A Regional Water Supply Authority)

Notes to Financial Statements

September 30, 2018

6. Deposits and Investments (continued)

Fair Value Measurements (continued)

The following table summarizes the fair value of Tampa Bay Water's investments at year end, in accordance with the GASB 72 valuations level's.

	<u>Fair Value Measurement Using</u>	
	<u>9/30/2018</u>	<u>Significant Other Observable Inputs (Level 2)</u>
Investments by Fair Value Level		
Commercial Paper	\$ 693,975	\$ 693,975
US Corporate	22,987,892	22,987,892
Supranational	6,244,598	6,244,598
Foreign Corporate	2,193,985	2,193,985
US Government Agency	44,019,375	44,019,375
US Treasury	36,805,901	36,805,901
Total Investment by Fair Value Level	<u>\$ 112,945,726</u>	<u>\$ 112,945,726</u>

The fair value of the financial instruments shown in the table above as of September 30, 2018 represent the estimated amounts that would be received to sell those assets in an orderly transaction between market participants at that date. Those fair value measurements maximize the use of observable inputs.

The following methods and assumptions were used to estimate the fair value of each class of financial instruments:

Government Securities and Agency Obligations: The estimated fair value of debt securities is based on other market data for the same or comparable instruments and transactions in establishing the prices. Fair values of debt securities do not trade on regular basis in active markets. These assets are classified as Level 2.

Commercial Paper: The estimated fair value of commercial paper is based on other market data for the same or comparable instruments and transactions in establishing the prices. Fair values of commercial paper do not trade on regular basis in active markets. These assets are classified as Level 2.

Tampa Bay Water
(A Regional Water Supply Authority)

Notes to Financial Statements

September 30, 2018

6. Deposits and Investments (continued)

Fair Value Measurements (continued)

US and Foreign Corporate: Domestic and foreign corporate bonds classified in Level 2 are valued using standard inputs consisting of benchmark yields, reportable trades, benchmark securities (where applicable), and reference data including market research publications.

7. Grants Receivable and Capital Contributions

In June 2016, the Agency entered into a grant agreement with the State of Florida Department of Environmental Protection for the replacement of the pumps at the Alafia Pump Station. The agreement states that the State will reimburse the Agency up to a maximum amount of \$648,000 and that any additional costs would be the responsibility of the Agency. In 2018 the Agency received a check for \$590,000 from the State and that is in addition to the \$58,000 the Agency received in 2017. The accounts receivable and revenue for \$590,000 was recorded in fiscal year 2017.

Tampa Bay Water

Transmission mains	339,942,372	-	764,143	339,178,229
Water treatment and pumping facilities	694,211,825	2,271,660	32,870	696,450,615
Reservoir	297,136,654	5,777,937	-	302,914,591
Other equipment and software	20,632,046	1,238,022	797,039	21,073,029
Total depreciable capital assets	1,513,881,642	9,287,619	7,606,946	1,515,562,315
Less: accumulated depreciation:				
Land improvements	948,656	90,943	-	1,039,599
Buildings	6,095,473	585,912	-	6,681,385
Wells and wellfield improvements	66,660,095	3,314,052	2,780,121	67,194,026
Transmission mains	70,510,703	4,616,627	138,395	74,988,935
Water treatment and pumping facilities	183,192,250	16,386,505	-	199,578,755
Reservoir	22,170,094	3,441,935	-	25,612,029
Other equipment and software	13,757,282	1,774,372	790,741	14,740,913
Total accumulated depreciation	363,334,553	30,210,346	3,709,257	389,835,643
Total depreciated capital assets, net	1,150,547,089	(20,922,727)	3,897,688	1,125,726,672
Total capital assets, net	\$ 1,250,586,339	\$ (15,618,845)	\$ 12,948,030	\$ 1,222,019,463

Deletions from construction-in-progress in 2018 include \$7,985,146 that were transferred to depreciable capital assets, \$36,981 transferred to land and \$13,282 to equipment.

Commitments on construction contracts at September 30, 2018, were \$12,632,278.

Interest is capitalized net of earnings from related tax-exempt debt proceeds. Interest cost incurred was \$49,189,636 for the fiscal year ended September 30, 2018. Of the interest cost incurred, \$570,497 was capitalized for the fiscal year ended September 30, 2018, offset by investment revenue earned on tax-exempt debt funds restricted for construction of \$144,153.

Notes to Financial Statements

September 30, 2018

10. Long-Term Debt and Other Noncurrent Liabilities (continued)

Revenues Pledged

The Agency has pledged its net revenues (gross revenues less operating expenses), all as defined by the Master Bond Resolution, to repay its \$842,105,000 outstanding utility system revenue bonds described above. The bonds are payable solely from net revenues and are payable through 2039. Pledged revenues, which are budgeted and collected annually to meet the annual debt service requirements, were \$70,133,615 in 2018. Annual principal and interest payments on the bonds are expected to require less than 50% of annual operating revenues. Bond covenants require the Agency to fund, among other accounts, sinking funds, and debt service reserves with pledged revenue. These funding requirements are described in Note 5.

The covenants also require that the Agency not issue any other obligations payable from the specified pledged revenue nor voluntarily create or cause to be created any debt, lien, pledge, assignment, encumbrances, or other charges having priority to or being on a parity with the lien of the specific bonds except under conditions specified in the resolutions. At September 30, 2018, the Agency complied with all debt covenants.

Defeasance of Debt

In 2016 and prior years, the Agency advance refunded certain bond issues through various refunding bonds. The proceeds of the refunding bonds were used to purchase United States government and agency securities that were placed in an irrevocable trust to fund all future debt service payments on the refunded debt. As a result, the refunded bonds are considered defeased, and the related liability has been removed from the accompanying financial statements.

At September 30, 2018, the principal amount outstanding of the 1995 defeased bonds (refunded in 1998), 2006 defeased bonds (refunded in 2015), 2011A defeased bonds (refunded in 2015), 2011B defeased bonds (refunded in 2015 and 2016), 2008 defeased bonds (refunded in 2016), and the 2010 defeased bonds (refunded in 2016) is \$292,755,000.

Notes to Financial Statements

September 30, 2018

11. Employee Retirement Plan

General Information

Substantially all full-time employees of the Agency are eligible to participate in the State of Florida Retirement System (FRS), a cost-sharing multiple-employer public retirement system that provides a defined benefit pension plan (the Pension Plan) for all state and participating county, district school board, community college, and university employees. The defined benefit plan was established in 1970 by the Florida Legislature. In 2002, the legislature amended the laws creating a new employer-funded, optional defined contribution program, the Public Employee Optional Retirement Program (the Investment Plan). Substantially all full-time employees are eligible to participate in this plan in lieu of the pension plan. Agency employees must have made their plan election prior to March 1, 2004. Subsequent to that date, all plan participants may exercise a one-time option to switch plans. New employees may elect to participate in either plan when eligible. FRS also provides death and disability benefits. Benefits are established by Chapter 121, *Florida Statutes*, and Chapter 22B, *Florida Administrative Code*.

All retirement legislation enacting benefit improvements must comply with Article X, Section 14, of the State Constitution and with Part VII, Chapter 112, Florida Statutes. Both of these provisions require that any increase in retirement benefits must be funded concurrently on an actuarially sound basis. The plans are administered by the State of Florida Division of Retirement, Department of Management Services. The FRS publishes an unaudited annual report that provides 10-year historical trend information about progress made in accumulating sufficient assets to pay benefits when due. The most recent available report is for the plan year ended June 30, 2018.

Contributions

The Florida Legislature enacted legislation in 2007 (Chapter 2007-84, *Laws of Florida*) that established uniform employer contribution rates for the FRS membership classes and subclasses and the Deferred Retirement Option Program (DROP). These rates are updated as of July 1 of each year. In 2011, legislation changed the plan making it mandatory for employees in the regular and senior management class to contribute 3% to the plan, while drop participants are not required to contribute. The Agency is required to contribute to the plans at these actuarially determined rates. Effective July 1, 2017 to June 30, 2018, the plan rates were 7.92%, 22.71%, and 13.26% for the regular class, senior management class, and drop participants, respectively. In 2018, legislation changed the plan rates for the plan year beginning July 1, 2018 to 8.26%, 24.06%, and 14.03% for the regular class, senior management, and drop participants, respectively. These rates include the Health Insurance Subsidy (HIS) contribution percentages mentioned below. The Agency's contributions for the fiscal year ended September 30, 2018, were \$1,026,036.

Tampa Bay Water
(A Regional Water Supply Authority)

Notes to Financial Statements

September 30, 2018

11. Employee Retirement Plan (continued)

Benefits Provided

The Pension Plan is a cost-sharing multiple-employer defined benefit pension plan, with a DROP for eligible employees. Benefits under this plan are computed on the basis of age, average final compensation, and service credit.

For Pension Plan members enrolled before July 1, 2011, and retire at or after age 62 with at least 6 years of credited service or with 30 years of service, regardless of age, are entitled to a retirement benefit payable monthly for life, equal to 1.6% of their average final compensation for each year of credited service. Final average compensation is the employee's average of the 5 highest fiscal years of salary earned during credited service. Vested employees may retire before age 62 and receive benefits that are reduced 5% for each year prior to normal retirement age of date. Employees enrolled on or after July 1, 2011, and retire at or after age 65 with at least 8 years of credited service or with 33 years of service regardless of age, are entitled to a retirement benefit payable monthly for life, equal to 1.6% of their average final compensation for each year of credited service. Final average compensation is the employee's average of the 8 highest fiscal years of salary earned during credited service. Vested employees may retire before age 65 and receive benefits that are reduced 5% for each year prior to normal retirement age or date.

As provided in Section 121.101, *Florida Statutes*, if the member is initially enrolled in the Pension Plan before July 1, 2011, and all service credit was accrued before July 1, 2011, the annual cost-of-living adjustment is 3% per year. If the member is initially enrolled before July 1, 2011, and has service credit on or after July 1, 2011, there is an individually calculated cost-of-living adjustment. The annual cost-of-living adjustment is a proportion of 3% determined by dividing the sum of the pre-July 2011 service credit by the total service credit at retirement multiplied by 3%. Plan members initially enrolled on or after July 1, 2011, will not have a cost-of-living adjustment after retirement.

In addition to the above benefits, the DROP allows eligible members to defer receipt of monthly retirement benefit payments while continuing employment with a FRS employer for a period not to exceed 60 months after electing to participate. Deferred monthly benefits are held in the FRS Trust Fund and accrue interest. There are no required contributions by DROP participants.

(A Regional Water Supply Authority)

Notes to Financial Statements

September 30, 2018

11. Employee Retirement Plan (continued)

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At September 30, 2018, the Agency reported a liability of \$8,035,499 for its proportionate share of the Pension Plan's net pension liability. The net pension liability was measured as of June 30, 2018, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of July 1, 2017. The actuarial valuation was rolled forward to June 30, 2018, using update procedures. The Agency's proportionate share of the net pension liability was based on the Agency's fiscal year 2018 contributions relative to the contributions of all participating members. At June 30, 2018, the Agency's proportionate share was 0.02669%, which was an increase of 0.0015% from its proportionate share measured as of June 30, 2017.

For the fiscal year ended September 30, 2018, the Agency recognized pension expense of \$1,587,309. In addition, the Agency reported deferred outflows of resources and deferred inflows of resources related to pension from the following sources.

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual experience	\$ 680,944	\$ (24,715)
Change of assumptions	2,626,443	-
Net difference between projected and actual earnings on Pension Plan investments	-	(621,038)
Changes in proportion and differences between Agency Pension Plan contributions and proportionate share of contributions	666,104	(56,451)
Agency Pension Plan contributions subsequent to the measurement date	213,289	-
Total	<u>\$ 4,186,780</u>	<u>\$ (702,204)</u>

(A Regional Water Supply Authority)

Notes to Financial Statements

September 30, 2018

11. Employee Retirement Plan (continued)

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions (continued)

The deferred outflows of resources related to the Pension Plan, totaling \$213,289 resulting from Agency contributions to the Plan subsequent to the measurement date, will be recognized as a reduction of the net pension liability in the fiscal year ended September 30, 2019. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to the Pension Plan will be recognized in the pension expense as follows:

Fiscal year ending September 30:	
2019	\$ 1,267,435
2020	864,972
2021	120,602
2022	575,958
2023	385,119
Thereafter	57,201

Actuarial Assumptions

The total pension liability in the June 30, 2018, actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation rate	2.60%
Salary increases	3.25%, average, including inflation
Investment rate of return	7.00%, net of pension plan investment expense, including inflation

Mortality rates were based on the Generational RP-2000 with Projected Scale BB tables.

The actuarial assumptions completed in 2014, valuation was based on the results of an actuarial experience study for the period July 1, 2008 through June 30, 2013.

Tampa Bay Water
(A Regional Water Supply Authority)

Notes to Financial Statements

September 30, 2018

11. Employee Retirement Plan (continued)

Actuarial Assumptions (continued)

The long-term expected rate of return on the Pension Plan investments was not based on historical returns, but instead is based on a forward-looking capital market economic model. The allocation policy's description of each asset class was used to map target allocation to the asset classes shown below. Each asset class assumption is based on a consistent set of underlying assumptions and includes an adjustment for inflation assumption. The target allocation and best estimates of arithmetic and geometric real rates of return for each major asset class are summarized in the following table:

	Target Allocation⁽¹⁾	Annual Arithmetic Return	Compound Annual (Geometric) Return	Standard Deviation
Cash	1.0%	2.9%	3.0%	1.8%
Fixed income	18.0	4.4	4.3	4.0
Global equity	54.0	7.6	6.3	17.0
Real estate (property)	11.0	6.6	6.0	11.3
Private equity	10.0	10.7	7.8	26.5
Strategic investments	6.0	6.0	5.7	8.6
Total	<u>100.0%</u>			
Assumed inflation – mean		-	2.6	1.9

⁽¹⁾ As outlined in the Pension Plan's investment policy.

Discount Rate

The discount rate used to measure the total pension liability was 7.00%. The Pension Plan's fiduciary net position was projected to be available to make all projected future benefit payments of current active and inactive employees. Therefore, the discount rate for calculation of the total pension liability is equal to the long-term expected rate of return.

11. Employee Retirement Plan (continued)

Sensitivity of Agency's Proportionate Share of the Net Position Liability to Changes in the Discount Rate

The following represents the Agency's proportionate share of the net pension liability calculated using the discount rate of 7.00%, as well as what the Agency's proportionate share of the net pension liability would be if it were calculated using a discount rate that is one percentage point lower (6.00%) or one percentage point higher (8.00%) than the current rate:

1% Decrease 6.00%	Current Discount Rate 7.00%	1% Increase 8.00%
\$ 14,669,782	\$ 8,035,499	\$ 2,530,008

Pension Plan Fiduciary Net Position

Detailed information regarding the Pension Plan's fiduciary net position is available in the separately issued FRS Pension Plan and Other State-Administered System Comprehensive Annual Financial Report.

This report may be obtained by writing to the Division of Retirement, Research Education and Policy Section, P.O. Box 9000, Tallahassee, FL 32315-9000, by calling (850) 488-5706, or by accessing its internet site at http://www.dms.myflorida.com/workforce_operations/retirement/publications/annual_reports.

Payables to the Pension Plan

At September 30, 2018, the Agency reported a payable in the amount of \$187,633 for outstanding contributions to the Pension Plan.

HIS Plan

General Information

The HIS plan is a cost-sharing multiple-employer defined benefit pension plan established under *Florida Statutes*, Section 112.363, and may be amended by the Florida Legislature at any time. The benefit is a monthly payment to assist retirees of state-administered retirement systems in paying their health insurance costs and is administered by the Florida Department of Management Services, Division of Retirement.

Tampa Bay Water
(A Regional Water Supply Authority)

Notes to Financial Statements

September 30, 2018

11. Employee Retirement Plan (continued)

HIS Plan (continued)

Benefits Provided

For the fiscal year ended September 30, 2018, eligible retirees and beneficiaries received a monthly HIS payment of \$5 for each year of creditable service completed at the time of retirement, with a minimum HIS payment of \$30 and a maximum payment of \$150 per month. To be eligible to receive these benefits, a retiree under a state-administered retirement system must provide proof of health insurance coverage, which may include Medicare.

Contributions

The HIS plan is funded by retirement contributions from FRS participating employers as set by the Florida Legislature. Employer contributions are a percentage of gross compensation for all active FRS members. Effective July 1, 2017 and 2018, the rates were 1.66% for both years. The Agency contributed 100% of its statutorily required contributions for the current and preceding three years. HIS plan contributions are deposited into a separate trust fund from which payments are authorized. HIS plan benefits are not guaranteed and are subject to annual legislative appropriation. In the event, legislative appropriation or available funds fail to provide full subsidy benefits to all participants, benefits may be reduced or cancelled.

The Agency's contributions to the HIS plan totaled \$184,755 for the fiscal year ended September 30, 2018.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At September 30, 2018, the Agency reported a liability of \$3,592,426 for its proportionate share of the HIS plan's net pension liability. The net pension liability was measured as of June 30, 2018, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of July 1, 2017 and update procedures were used to determine liabilities as of June 30, 2018. The Agency's proportionate share of the net pension liability was based on the Agency's fiscal year contributions relative to the fiscal year contributions of all participating members. At June 30, 2018, the Agency's proportionate share was 0.0339%, which was an increase of 0.0009% from its proportionate share measured as of June 30, 2017.

Tampa Bay Water
(A Regional Water Supply Authority)

Notes to Financial Statements

September 30, 2018

11. Employee Retirement Plan (continued)

HIS Plan (continued)

For the fiscal year ended September 30, 2018, the Agency recognized pension expense of \$349,296. In addition, the Agency reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual experience	\$ 54,998	\$ (6,103)
Change of assumptions	399,526	(379,822)
Net difference between projected and actual earnings on HIS plan investments	2,168	-
Changes in proportion and differences between Agency HIS plan contributions and proportionate share of contributions	340,968	-
Agency HIS plan contributions subsequent to the measurement date	49,375	-
Total	\$ 847,035	\$ (385,925)

The deferred outflows of resources related to the HIS plan, totaling \$49,375 resulting from Agency contributions to the HIS plan subsequent to the measurement date, will be recognized as a reduction of the net pension liability in the fiscal year ended September 30, 2019. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to the HIS plan will be recognized in pension expense as follows:

Fiscal year ending September 30:		
2019		\$ 287,561
2020		286,498
2021		200,714
2022		45,081
2023		(279,828)
Thereafter		(128,291)

Tampa Bay Water
(A Regional Water Supply Authority)

Notes to Financial Statements

September 30, 2018

11. Employee Retirement Plan (continued)

HIS Plan (continued)

Actuarial Assumptions

The total pension liability in the July 1, 2017 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation	2.60%
Salary increases	3.25%, average, including inflation
Municipal rate	3.87%

Mortality rates were based upon the Generational RP-2000 with Projection Scale BB tables.

The actuarial assumptions used in 2014, valuation were based on the results of an actuarial experience study for the period July 1, 2008 through June 30, 2013.

Discount Rate

The discount rate used to measure the total pension liability was 3.87%. In general, the discount rate for calculating the total pension liability is equal to the single rate equivalent to discounting at the long-term expected rate of return for benefit payments prior to the projected depletion date. Because the HIS benefit is essentially funded on a pay-as-you-go basis, the depletion date is considered to be immediate, and the single equivalent discount rate is equal to the municipal bond rate selected by the HIS plan sponsor. The Bond Buyer General Obligation 20-Bond Municipal Bond Index was adopted as the applicable municipal bond index.

Sensitivity of the Agency's Proportionate Share of the Net Position Liability to Changes in the Discount Rate

The following represents the Agency's proportionate share of the net pension liability calculated using the discount rate of 3.87%, as well as what the Agency's proportionate share of the net pension liability would be if it were calculated using a discount rate that is one percentage point lower (2.87%) or one percentage point higher (4.87%) than the current rate:

	1% Decrease 2.87%	Current Discount Rate 3.87%	1% Increase 4.87%
Agency's proportionate share of the net pension liability	\$ 4,091,563	\$ 3,592,426	\$ 3,176,367

Tampa Bay Water
(A Regional Water Supply Authority)

Notes to Financial Statements

September 30, 2018

11. Employee Retirement Plan (continued)

HIS Plan (continued)

Pension Plan Fiduciary Net Position

Detailed information regarding the HIS plan's fiduciary net position is available in the separately issued FRS Pension Plan and Other State-Administered System Comprehensive Annual Financial Report.

This report may be obtained by writing to the Division of Retirement, Research Education and Policy Section, P.O. Box 9000, Tallahassee, FL 32315-9000, by calling (850) 488-5706, or by accessing its internet site at [publications/annual reports](#).

Payables to the Pension Plan

At September 30, 2018, the Agency reported a payable in the amount of \$30,123 for outstanding contributions to the HIS plan.

Investment Plan

The State Board of Administration (SBA) administers the defined contribution plan officially titled the FRS Investment Plan. The Investment Plan is reported in the SBA's annual financial statements and in the State of Florida Comprehensive Annual Financial Report.

As provided in Section 121.4501, *Florida Statutes*, eligible FRS members may elect to participate in the FRS Investment Plan in lieu of the FRS defined benefit plan. Agency employees participating in DROP are not eligible to participate in the FRS Investment Plan. Employer and employee contributions, including amounts contributed to individual member's accounts, are defined by law, but the ultimate benefit depends in part on the performance of investment funds. Benefit terms, including contribution requirements, for the FRS Investment Plan are established and may be amended by the Florida Legislature. The FRS Investment Plan is funded with the same employer and employee contribution rates that are based on salary and membership class (regular class, senior management) as the Pension Plan. Contributions are directed to individual member accounts, and the individual members allocate contributions and account balances among various approved investment choices. Costs of administering the FRS Investment Plan, including the FRS Financial Guidance Program, are funded through an employer contribution of 0.04% of payroll and by forfeited benefits of plan members. Allocations to the investment member's accounts during fiscal year 2017, as established by Section 121.72, *Florida Statutes*, are based on a percentage of gross compensation, by class, as follows: regular class 6.30% and senior management service class 7.67%.

Tampa Bay Water
(A Regional Water Supply Authority)

Notes to Financial Statements

September 30, 2018

11. Employee Retirement Plan (continued)

Investment Plan (continued)

For all membership classes, employees are immediately vested in their own contributions and are vested after one year of service for employer contributions and investment earnings. If an accumulated benefit obligation for service credit originally earned under the Pension Plan is transferred to the FRS Investment Plan, the member must have the years of service required for Pension Plan vesting (including the service credit represented by the transferred funds) to be vested for these funds and the earnings on the funds. Non-vested employer contributions are placed in a suspense account for up to five years. If the employee returns to FRS-covered employment within the five-year period, the employee will regain control over their account. If the employee does not return within the five-year period, the employee will forfeit the accumulated account balance. For the fiscal year ended September 30, 2018, the information for the amount of forfeitures was unavailable from the SBA; however, management believes that these amounts, if any, would be immaterial to the Agency.

After termination and applying to receive benefits, the member may roll over vested funds to another qualified plan, structure a periodic payment under the FRS Investment Plan, receive a lump-sum distribution, leave the funds invested for future distribution, or any combination of these options. Disability coverage is provided; the member may either transfer the account balance to the Pension Plan when approved for disability retirement to receive guaranteed lifetime monthly benefits under the Pension Plan or remain in the FRS Investment Plan and rely upon that account balance for retirement income.

12. Other Post-Employment Health Care Benefits

The Agency implemented GASB Statement No. 75 in fiscal year 2018 to account for certain post-employment health care benefits provided by the Agency. GASB Statement No. 75 replaced GASB Statement No. 45

Plan Description

The Post-Employment Health Care Benefits Plan is a single-employer defined benefit plan administered by the Agency. Pursuant to the provisions of Section 112.0801, *Florida Statutes*, former employees who retire from the Agency and their eligible dependents may continue to participate in the Agency's fully insured health and hospitalization plan for medical and prescription drug coverage. The Agency subsidizes the premium rates paid by retirees by allowing them to participate in the plans at blended group (implicitly subsidized) premium rates for both active and retired employees. These rates provide an implicit subsidy for retirees because, on an actuarial basis, their current and future claims are expected to result in higher costs to the plan on average than those of active employees.

Tampa Bay Water
(A Regional Water Supply Authority)

Notes to Financial Statements

September 30, 2018

12. Other Post-Employment Health Care Benefits (continued)

Funding Policy

For the Post-Employment Health Care Benefits Plan, contribution requirements of the Agency are established and may be amended through recommendations of the Chief Financial Officer and action from the Board of Directors. The Agency has not advanced-funded or established a funding methodology for the annual OPEB costs or the total OPEB liability. As of the last required actuarial evaluation, October 1, 2017, there were three retirees and zero eligible dependents receiving post-employment health care benefits. The plan is funded on "pay as you go" basis. For the year ended September 30, 2018, \$15,051 was contributed for pay as you go benefits of the Plan.

Plan Membership

The following schedule (derived from the most recent actuarial valuation report) reflects membership for the OPEB Plan as of October 1, 2017

Active employees	138
Retiree receiving benefits	<u>3</u>
Total	141

Total OPEB Liability

The Agency changes in the total OPEB liability by source for the fiscal year ended September 30, 2018.

Beginning Total OPEB Liability on September 30, 2017	\$272,578
Service Cost	23,301
Interest	10,376
Benefit Payments	<u>(15,051)</u>
Total OPEB Liability on September 30, 2018	\$291,204

The required schedule of changes in the Agency's total OPEB liability and related ratios immediately following the notes to the financial statements presents multi-year trend information about whether the value of plan assets are increasing or decreasing over time relative to the total OPEB liability.

Actuarial assumptions: The total OPEB liability was determined by an actuarial valuation as of October 1, 2017, with update procedures performed by the actuary to roll forward the total OPEB liability to the measurement date of September 30, 2018. The following actuarial assumptions apply to all periods included in the measurement:

Discount Rate	3.75%
---------------	-------

Tampa Bay Water
(A Regional Water Supply Authority)

Notes to Financial Statements

September 30, 2018

12. Other Post-Employment Health Care Benefits (continued)

Overall Payroll Growth	3.50%
Inflation rate	2.60%
Actuarial cost method	Entry Age Normal, level percent of salary
Initial healthcare cost rate	7.00% October 1, 2017 valuation
Ultimate healthcare cost rate	Rate ranges from 7.00% to 6.00% in fiscal year 2028

Mortality rates were based on the RP 2000 Combined Healthy Mortality Table, projected with scale BB.

Discount rate. The discount rate used to measure the total OPEB liability was 3.75% as of September 30, 2018. This rate was determined using an index rate of 20-year, tax-exempt general obligation municipal bonds with an average rating of AA or higher - which was 3.75% as determined by the application GO Index Rate as of September 30, 2018.

Sensitivity of the total OPEB liability to changes in the discount rate and healthcare cost rate trend. The following presents the total OPEB liability of the Authority, calculated using the discount rate, as well as what the Authority's total OPEB liability would be if it were calculated using a discount rate or healthcare cost rate that is one percentage point lower or one percentage point higher than the current rate.

The following table represents the sensitivity analysis discussed above as of October 1, 2017:

	1% Decrease	Current Discount Rate (3.75%)	1% Increase
1% Decrease - Healthcare cost rate trend (6.00%)	\$ -	\$ 260,109	\$ -
Agency Total OPEB Liability	307,725	291,904	274,942
1% Increase - Healthcare cost rate trend (8.00%)	\$ -	\$ 327,530	\$ -

13. Risk Management

The Agency is exposed to various risks of loss related to tort; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The Agency has transferred the risk to outside parties through the purchase of various types of insurance coverage. The Agency purchases the following insurance coverage through Risk Management Associates and Public Risk Insurance Agency/Brown and Brown, Inc., from various carriers: property insurance, inland marine, boiler and machinery insurance, commercial general liability, business auto liability and physical damage, marine hull coverage, employment practice liability, public official liability, government crime coverage, and environmental impairment liability coverage relative to the operation of the desalination plant. The Agency obtained its workers' compensation from Preferred Government Insurance Trust, a pool open to state and local governments. In addition, the Agency purchases storage tank insurance through Commerce & Industry Insurance Company. There have been no significant reductions in insurance coverage from the prior year. Except as discussed in Note 15, no settlements have exceeded insurance coverage over the past three years.

14. Commitments and Contingencies

Litigation

The Agency is a party to various lawsuits, claims, and legal actions arising in the ordinary course of business. These actions relate primarily to eminent domain, construction claims, disputes, and personnel matters. Except as discussed in Note 15, any losses that may be incurred in connection with these matters are deemed by management to not be material to the Agency's financial statements.

On September 30, 2018, Tampa Bay Water was a party to the following lawsuit: **Big Cat Rescue Corp. v. Tampa Bay Water** et al, Case No. 2016-8904, Hillsborough County Circuit Court, Civil Division. The case was filed by an entity seeking a statutory way of necessity across property in which Tampa Bay Water has an easement for pipelines and appurtenant facilities. This is a complaint for statutory way of necessity across property in which Tampa Bay water has an easement for pipelines and appurtenant facilities. Other defendants include the property owner and other easement holders. Tampa Bay Water has no objection to the request provided its easement rights and its facilities are not compromised. The plaintiffs are moving the case very slowly and there has been little progress in the last year.

14. Commitments and Contingencies (continued)

Litigation (continued)

In fiscal year, 2018, Tampa Bay Water was a party to the following lawsuit: **Ruben Bazarte, Jr. v. Hillsborough County and Tampa Bay Water** et al, Case No. 2018-275, Hillsborough County Circuit Court, Civil Division. This is a complaint for damages based on allegations that plaintiff's drinking water was contaminated with reclaimed water and wastewater. The amended complaint includes counts against Tampa Bay Water for negligence, violating the Safe Drinking Water Act, product liability, and breach of warranty. Tampa Bay Water denies responsibility for the claims and will vigorously defend this case. Tampa Bay Water's insurer is providing Tampa Bay Water's defense in this case. Discovery is ongoing.

In October 2018, Tampa Bay Water was a party to the following lawsuit: **Miguel Daniel Hernandez v. Tampa Bay Water**, Case No. 2018-006075-CI, Pinellas County Circuit Court, Civil Division. This is a complaint for damages arising out of an October 2017 vehicle accident involving an agency vehicle driven by an agency employee. Tampa Bay Water's insurer is providing Tampa Bay Water's defense in this case. Discovery is ongoing.

Grant Funds

The Agency is subject to audit examination by funding agencies to determine compliance with grant conditions. In the event that expenditures would be disallowed, repayment could be required.

14. Commitments and Contingencies (continued)

Operating Leases

The Agency leases land for the Seawater Desalination Plant under a noncancelable operating lease and easement agreement expiring December 31, 2032. The lease may be extended for up to two consecutive additional periods of 30 years each. Rental expense on this lease was \$43,680 in 2018. Real estate taxes of \$129,863 were also paid in 2018. The basic rent is adjusted yearly by applying the consumer price index for all urban consumers to the prior year basic rent.

The aggregate future minimum operating lease payments for the fiscal year ended September 30, 2018, are as follows:

	Desalination Plant Land Lease
2019	\$ 44,608
2020	45,545
2021	46,501
2022	47,478
2023	48,475
2024-2028	258,077
2029-2033	241,352
	\$ 732,036

At the June 2016 Board Meeting the Board Members approved a 36-month lease extension for temporary office space in Hillsborough County. Rental expense on this lease was \$20,856 in 2018.

The aggregate future minimum operating lease payments for the fiscal year ended September 30, 2018, are as follows:

	South Office Building Lease
2019	\$ 28,848
	\$ 28,848

14. Commitments and Contingencies (continued)

Operations and Maintenance Agreements

The 20-year Operation, Maintenance, and Management (OM&M) Services Agreement for operation of the desalination plant with American Water-Pridesa, LLC, approved by the Board of Directors in 2004, went into effect as of November 8, 2007. Under this agreement, American Water-Pridesa, LLC operates and maintains the plant, and the Agency will pay a service fee consisting of a base OM&M charge, certain pass-through charges, maintenance reserve fund charges, and various fee adjustments. The base OM&M charge will be adjusted at the beginning of each contract year based on certain labor and plant cost indexes. The contract can be terminated for convenience with 90 days' notice and payment for all services performed, reimbursable expenses due, a termination fee of \$1 million gradually declining to zero after 15 years and demobilization fee of \$50,000. Total operating fees under this contract was \$6,457,049 for 2018. In the agreement it states that American Water-Pridesa, LLC will maintain a reserve fund for the benefit of Tampa Bay Water, which will support the cost of making major equipment renewals and replacements to the Facility, in accordance with the repair and replacement plan required by Section 3.6 of the agreement with funds added to the reserve fund each month pursuant to the amount included in the Base O&M charge for Major Equipment Renewal and Replacement Reserve Fee (MERR). The balance in the MERR fund was \$302,464 for the fiscal year ended September 30, 2018. In the agreement it states that American Water-Pridesa, LLC will maintain a reserve fund for the benefit of Tampa Bay Water, which will support the cost of replacing the reverse osmosis system membranes in the Facility during the term of the agreement in accordance with the Manual and the Reverse Osmosis System Membrane Replacement (ROSMR) Schedule. Funds added to the ROSMR Reserve fund are added on a monthly basis. The balance in the ROSM Reserve fund was \$1,828,948 for the fiscal year ended September 30, 2018.

(A Regional Water Supply Authority)

Notes to Financial Statements

September 30, 2018

14. Commitments and Contingencies (continued)

Operations and Maintenance Agreements (continued)

The Agency is a party to an Operations and Maintenance (O&M) Agreement with Veolia Water North America for the operation of its Surface Water Treatment Plant. The agreement, which became effective in 2004, provides for the payment by the Agency of a service fee that includes a base O&M charge that is payable regardless of plant production levels and several variable and pass-through cost components. The base O&M charge and certain other cost components increase yearly based on an index directly related to the expense. The agreement is fully cancelable with 90 days' notice, payment of all accrued service fees, and any demobilization costs. Expense under this agreement was \$7,314,773 for the fiscal year ended September 30, 2018. In the agreement it states that Veolia Water North America will maintain a reserve fund for the benefit of Tampa Bay Water, which will support the cost of making major equipment renewals and replacements to the Facility, in accordance with the repair and replacement plan required by Section 6.6.2 of the agreement, with funds added to the reserve fund each month pursuant to the amount included in the Base O&M charge for Major Equipment Renewal and Replacement Reserve Fee (MERR). The balance in the MERR fund was \$2,594,256 for the fiscal year ended September 30, 2018. In the agreement it states that Veolia Water North America will maintain a reserve fund for the benefit of Tampa Bay Water, which will support the cost of replacement of one third of all granular activated carbon in the filters in the facility, in accordance with the granular activated carbon replacement requirements identified in Schedule 24 of the agreement, with funds added to the reserve fund each month pursuant to the amount included in the Base O&M charge for the Granular Activated Carbon (GAC) Reserve Fee. The balance in the GAC fund was \$1,622,889 for the fiscal year ended September 30, 2018.

The Agency is also a party to a facility maintenance agreement with Veolia Water North America for the maintenance of the Keller Hydrogen Sulfide Treatment Facility. The agreement provides for payment by the Agency of a service fee and is fully cancelable with a pro rata settlement of the annual service fee for work performed prior to termination of the Agreement. Expense under this agreement was \$175,854 for the fiscal year ended September 30, 2018.

14. Commitments and Contingencies (continued)

Regional Reservoir

The C.W. Bill Young Regional Reservoir, located in southern Hillsborough County, is designed to store up to 15.5 billion gallons from various surface water sources. The facility was completed and placed into full operational status in June 2005. Beginning in December 2006, larger-than-expected cracks began to form in the flat-plate soil-cement on the interior face of the embankment. The flat-plate soil-cement is an erosion barrier that provides erosion protection for the embankment and is not a structural component of the reservoir. Engineers engaged by both the Agency and the FDEP agreed that the reservoir was safe and poses no public safety hazard. In August 2008, FDEP and the Agency agreed to limit the fill elevation at the Reservoir to 105 feet (approximately 6.5 billion gallons) to prevent potential storm-related wave damage to the cracked areas in the flat-plate soil-cement, until the damaged areas had been repaired. In June 2009, the Agency completed a short-term repair program and received FDEP approval to return the reservoir to its current permitted fill volume and rate of withdrawal. In June 2009, the Board of Directors adopted a resolution that authorized the General Manager to proceed with a permanent fix for the facility. Between October 2009, and April 2010, staff assembled a team of financial, technical, and legal advisors and began a competitive procurement process, which was completed in 2011. On June 20, 2011, the Board of Directors approved the proposal from design-builder Kiewit Infrastructure Group (Kiewit) to renovate the Regional Reservoir and increase storage by three billion gallons. Kiewit's proposed cost was approximately \$162,366,875, of which \$41,630,885 was to be used to increase the reservoir's capacity. In April 2012, during the permitting process, the Bureau of Mining and Minerals Regulation of the FDEP informed the Agency the application was complete, but FDEP had concerns regarding the potential for impacts to the increased storage facility caused by freeze protection agricultural pumping in the region. As a result of these concerns, the Agency received Board of Directors approval in June 2012 to redesign the project by eliminating the increased storage component. The contract amendment for the redesign in the approximate amount of \$129,376,976 was approved by the Board of Directors August 2012. The design was completed, and FDEP approved the project December 2012. In preparation for construction the reservoir, water levels were drawn down, which was complete December 2012. Full notice to proceed for construction was issued February 2013. In late July 2014, initial filling began, and construction was essentially completed in late 2014. On November 5, 2014, FDEP approved to transfer the reservoir permit to the operation phase. In 2014, the Reservoir entered into the maintenance and monitoring phase of the contract with Kiewit Infrastructure Group, and the expense under this contract was \$1,529,452 for the fiscal year ended September 30, 2018.

15. Litigation Settlements and Insurance Recoveries

In fiscal year 2018, the Agency received a total of \$18,178 from insurance recoveries due to minor vehicle accident claims.

⁽¹⁾ Revised budget includes prior year purchase orders carried forward and all approved budget transfers.

Tampa Bay Water's Adopted Budget

In June 2017, The Board of Directors (Board) adopted a \$167.7 million budget for Fiscal Year 2018. The budget was adopted in accordance with Section 2.08 of the Amended and Restated Interlocal Agreement. The 2018 budget adheres to the budget policies and budgetary controls adopted by the Board for the Fiscal Year starting October 1, 2017 and ending September 30, 2018.

Budget Basis

The basis for developing and adopting the annual budget for Tampa Bay Water is established by the Amended and Restated Interlocal Agreement. This requires that the budget be prepared primarily on an accrual basis, which is similar to the Agency's annual financial statements. Notable differences between the budget basis and the GAAP basis used for financial reporting are as follows:

- Principal payments on long-term debt are treated as current expenditures for the budget basis, as opposed to being recorded as a reduction of outstanding liabilities for the GAAP basis.
- Capital expenditures funded from the rate are treated as current expenditures under the budget basis, but are treated as acquisition of capital assets under the GAAP basis.
- Capital expenditures funded from debt proceeds are not reflected under the budget basis and are capital asset acquisitions under the GAAP basis.
- The budget basis includes only that interest income which is available for use for budgetary purposes. The GAAP basis reflects all interest income, including that restricted as to purpose, and as adjusted for interest income which is offset against interest costs allocated to construction projects in accordance with GAAP.
- The budget basis includes only interest expense that is to be paid from the rate and budgeted revenue sources. Interest expense under the GAAP basis may also include interest costs being paid from bond proceeds (capitalized interest) and will exclude any interest costs that are treated as a cost of assets in the construction phase.
- The budget basis also reflects transfers to and from various reserves, which are not revenue and expense under the GAAP basis.

Budget Process

Section 2.08. Article II, *Creation and Governance*, of the Amended and Restated Interlocal Agreement establishes the procedures and requirements for the development of an annual budget for Tampa Bay Water. The requirements are as follows:

- Prior to July 1 of each year, the General Manager shall prepare and deliver to the Board a balanced tentative budget for Tampa Bay Water covering its proposed operating and other financial requirements for the ensuing fiscal year. The tentative budget shall identify:

Budget Process

- o The rate at which Quality Water will be sold to Member Governments during such fiscal year; and
- o The rate to be charged to the City of Tampa for water provided through the Tampa Bypass Canal pumping facility during such fiscal year.
- The Board shall publish a notice of its intention to adopt the budget and shall provide copies of the notice and tentative budget to each Member Government on or before the first publication date. The notice shall include a summary of the tentative budget; specify the rates at which Quality Water will be sold to the Member Governments; and identify the time, date, and place at which the public may appear before the Board and state their objections to or support of the budget and rates. The notice shall be published once a week for two consecutive weeks within thirty (30) days of the public hearing, in any newspaper qualified to accept legal advertisements in each county in the jurisdiction of Tampa Bay Water, the last insertion of which shall appear not less than one week prior to the date set by the Board for the hearing on the proposed budget and rates.
- At the time, date and place specified in the notice, the Board shall conduct a public hearing and thereafter may consider adoption of the budget and rates with any amendments it deems advisable. Unless otherwise authorized by the Board, the final budget and rates shall be adopted by August 1.
- The adopted budget shall be the operating and fiscal guide for Tampa Bay Water for the ensuing fiscal year. The Board may amend the budget at any regular or special meeting; provided however, that prior to approving any budget amendment that increases the total budget for any fiscal year (other than a budget amendment appropriating grant funds or the proceeds of debt obligations), the Board shall provide notice and conduct an additional public hearing in the manner described above.

Budget Amendments

Agency policy allows the transfer of budget between sub-categories within a single budgetary category (e.g. within Professional Services from Hydrological Services to Ecological Services) with the approval of the General Manager. Transfers of budget between major categories (e.g. from Professional Services to Materials & Supplies or to Repairs & Other Services) must be submitted to the Agency's board for approval regardless of dollar amount. Any increase to the total budget also requires Board approval and a public hearing.

Monthly Financial Reporting

In accordance with best financial management practices, The Finance Department provides monthly financial reports to the Board. The monthly reports provide the Board with a clear comparison of actual expenses to budgeted amounts as well as a means of monitoring water production for each member government and revenues received from water sales.

Operating Division/Departments

III. STATISTICAL SECTION

The Statistical Section of Comprehensive Annual Financial Report for Tampa Bay Water is intended to provide financial statement users with additional historical perspective, context, and detail to assist in using information in the financial statements, notes to financial statements, and required supplementary information to understand and assess the agencies economic condition.

The Statistical Section is unaudited.

- **Financial Trends (Tables 1-7)**
These tables and charts contain trend information to help the reader understand how Tampa Bay Water’s performance has changed over time.
- **Revenue Capacity (Tables 8-10)**
These tables and charts contain information to help the readers assess Tampa Bay Water’s most significant revenue sources.
- **Debt Capacity (Tables 11-12)**
These tables and charts present information to help the reader assess the ability of Tampa Bay Water to pay debt service on outstanding debt.
- **General Information (Tables 13-15)**
These tables and charts contain service and infrastructure data to help the reader understand how information in its financial report relates to Tampa Bay Water provided services and activities.
- **Demographic and Economic Information (Tables 16-17)**
These tables offer demographic and economic indicators to help the reader understand the environment in which Tampa Bay Water’s financial activities take place.

Notes:

- (1) Fiscal year 2016 net position was restated to reflect a change in bond premium amortization to the Effective Interest Method and to record. Escrowed Reserve funds held with our facility operators, Veolia Water North America and American Water-Pridesa, LLC. Cumulative effect on net position was an increase of \$5,576,805.
- (2) The beginning net position for fiscal year 2015 was restated to reflect the implementation of GASB 68, which was a decrease of \$5,311,035 in net position.
- (3) The net position for fiscal year 2013 was restated to reflect the implementation of GASB 65, which decreased the net position by \$6,001,560.
- (4) The net position for fiscal year 2009 was restated to reflect the implementation of GASB 53, which increased the net position by \$20,779,169.

Supplying Water To The Region

IV. COMPLIANCE SECTION

**INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER
FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS
BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN
ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS***

**To the Board of Directors of
Tampa Bay Water, A Regional Water Supply Authority
Clearwater, Florida**

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of Tampa Bay Water, A Regional Supply Authority (the "Agency"), as of and for the year ended September 30, 2018, and the related notes to the financial statements, which collectively comprise the Agency's basic financial statements, and have issued our report thereon dated February 11, 2019.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the Agency's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Agency's internal control. Accordingly, we do not express an opinion on the effectiveness of the Agency's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or, significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Agency's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

TAMPA BAY WATER

SCHEDULE OF FINDINGS AND RESPONSES
FOR THE FISCAL YEAR ENDED SEPTEMBER 30, 2018

STATUS OF PRIOR YEAR AUDIT FINDINGS

2017-001 Correction of Errors

Criteria: Generally accepted accounting principles require that all cash of the government be reported in the Statement of Net Position. Additionally, Governmental Accounting Standards require bond premiums to be amortized using the effective interest method.

Condition: The Agency did not properly record cash deposits made as a result of various operating agreements. Additionally, the Agency did not properly amortize bond premiums using the effective interest method.

Context: Agency officials made us aware of these items and determined the appropriate amounts to record as of October 1, 2017.

Status: Corrected.

Note 3: Fund balance is defined by the Master Bond Resolution and is calculated as of the prior year-end in accordance with the Master Bond Resolution.

Note 4: Debt service coverage is calculated on the total debt service requirement, net of any capitalized interest provided from bond proceeds, in accordance with the Master Bond Resolution.

INDEPENDENT AUDITOR'S REPORT

To the Board of Directors of
Tampa Bay Water, A Regional Water Supply Authority
Clearwater, Florida

We have audited, in accordance with auditing standards generally accepted in the United States of America, the financial statements of Tampa Bay Water, A Regional Water Supply Authority (the "Agency"), which comprise the statement of net position as of September 30, 2018, and the statement of activities and cash flows, and the related notes to the financial statements, and have issued our report, thereon, dated February 11, 2019.

In connection with our audit, nothing came to our attention that caused us to believe that the Agency failed to comply with the terms, covenants, provisions, or conditions of Sections 4 and 5 of the Master Bond Resolution dated August 31, 1998, insofar as they relate to accounting matters for the following bonds:

- Utility System Refunding and Improvement Revenue Bonds, Series 2001A
- Utility System Refunding Revenue Bonds, Series 2004
- Utility System Refunding and Improvement Revenue Bonds, Series 2005
- Utility System Refunding Revenue Bonds, Series 2010
- Utility System Refunding Revenue Bonds, Series 2011
- Utility System Refunding Revenue Bonds, Series 2011A
- Utility System Refunding Revenue Bonds, Series 2013
- Utility System Refunding Revenue Bonds, Series 2015A
- Utility System Refunding Revenue Bonds, Series 2015B
- Utility System Refunding Revenue Bonds, Series 2016A
- Taxable Utility System Refunding Revenue Bonds, Series 2016B
- Utility System Refunding Revenue Bonds, Series 2016C

However, our audit was not directed primarily toward obtaining knowledge of such noncompliance. Accordingly, had we performed additional procedures, other matters may have come to our attention regarding the Agency's noncompliance with the above referenced terms, covenants, provisions, or conditions of Sections 4 and 5 of the Master Bond Resolution dated August 31, 1998, insofar as they relate to accounting matters.

This report is intended solely for the information and use of the Agency and the member governments and is not intended to be, and should not be, used by anyone other than the specified parties.

Bradenton, Florida
February 11, 2019

INDEPENDENT AUDITOR'S MANAGEMENT LETTER

**To the Board of Directors of
Tampa Bay Water, A Regional Water Supply Authority
Clearwater, Florida**

Report on the Financial Statements

We have audited the financial statements of Tampa Bay Water, A Regional Water Supply Authority (the "Agency"), as of and for the fiscal year ended September 30, 2018, and have issued our report thereon dated February 11, 2019.

Auditor's Responsibility

We conducted our audit in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States and Chapter 10.550, *Rules of the Auditor General*.

Other Reporting Requirements

We have issued our Independent Auditor's Report on Internal Control over Financial Reporting and On Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with *Government Auditing Standards* and Independent Accountant's Report on an examination conducted in accordance with *AICPA Professional Standards*, AT-C Section 315, regarding compliance requirements in accordance with Chapter 10.550, *Rules of the Auditor General*. Disclosures in those reports and schedule, which are dated February 11, 2019, should be considered in conjunction with this management letter.

Prior Audit Findings

Section 10.554(1)(i)1., *Rules of the Auditor General*, requires that we determine whether or not corrective actions have been taken to address findings and recommendations made in the preceding annual financial audit report. Prior year finding 2017-001 was corrected in the current year financial audit report.

Official Title and Legal Authority

Section 10.554(1)(i)4., *Rules of the Auditor General*, requires that the name or official title and legal authority for the primary government and each component unit of the reporting entity be disclosed in this management letter, unless disclosed in the notes to the financial statements. This information is disclosed in the notes to the financial statements.

Financial Condition and Management

Section 10.554(1)(i)5.a. and 10.556(7), *Rules of the Auditor General*, require us to apply appropriate procedures and communicate the results of our determination as to whether or not the Agency has met one or more of the conditions described in Section 218.503(1), *Florida Statutes*, and to identify the specific condition(s) met. In connection with our audit, we determined that the Agency did not meet any of the conditions described in Section 218.503(1), *Florida Statutes*.

Pursuant to Sections 10.554(1)(i)5.c. and 10.556(8), *Rules of the Auditor General*, we applied financial condition assessment procedures for the Agency. It is management's responsibility to monitor the Agency's financial condition, and our financial condition assessment was based in part on representations made by management and review of financial information provided by same.

Section 10.554(1)(i)2, *Rules of the Auditor General*, requires that we communicate any recommendations to improve financial management. In connection with our audit, we did not have any such recommendations.

Additional Matters

Section 10.554(1)(i)3., *Rules of the Auditor General*, requires us to communicate noncompliance with provisions of contracts or grant agreements, or abuse, that have occurred, or are likely to have occurred, that have an effect on the financial statements that is less than material but warrants the attention of those charged with governance. In connection with our audit, we did not note any such findings.

Purpose of this Letter

Our management letter is intended solely for the information and use of the Legislative Auditing Committee, members of the Florida Senate and the Florida House of Representatives, the Florida Auditor General, federal and other granting agencies, the Board of Directors, and applicable management, and is not intended to be and should not be used by anyone other than these specified parties.

INDEPENDENT AUDITOR'S REPORT

To the Board of Directors of
Tampa Bay Water, A Regional Water Supply Authority
Clearwater, Florida

We have examined Tampa Bay Water, A Regional Supply Authority's (the "Agency") compliance with Section 218.415, *Florida Statutes*, regarding the investment of public funds during the year ended September 30, 2018. Management is responsible for the Agency's compliance with those requirements. Our responsibility is to express an opinion on the Agency's compliance based on our examination.

Our examination was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants and, accordingly, included examining, on a test basis, evidence about the Agency's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our examination provides a reasonable basis for our opinion. Our examination does not provide a legal determination on the Agency's compliance with specified requirements.

In our opinion, the Agency complied, in all material respects, with the aforementioned requirements for the year ended September 30, 2018.

This report is intended solely for the information and use of the Agency and the Auditor General, State of Florida, and is not intended to be and should not be used by anyone other than these specified parties.

A handwritten signature in cursive script that reads "Mauldin & Jenkins, LLC".
